

MellowYak Phase 10

Product Truth and Daily Workflow

36 deterministic synthetic operational screens · English and Hebrew RTL · 2026-08-25

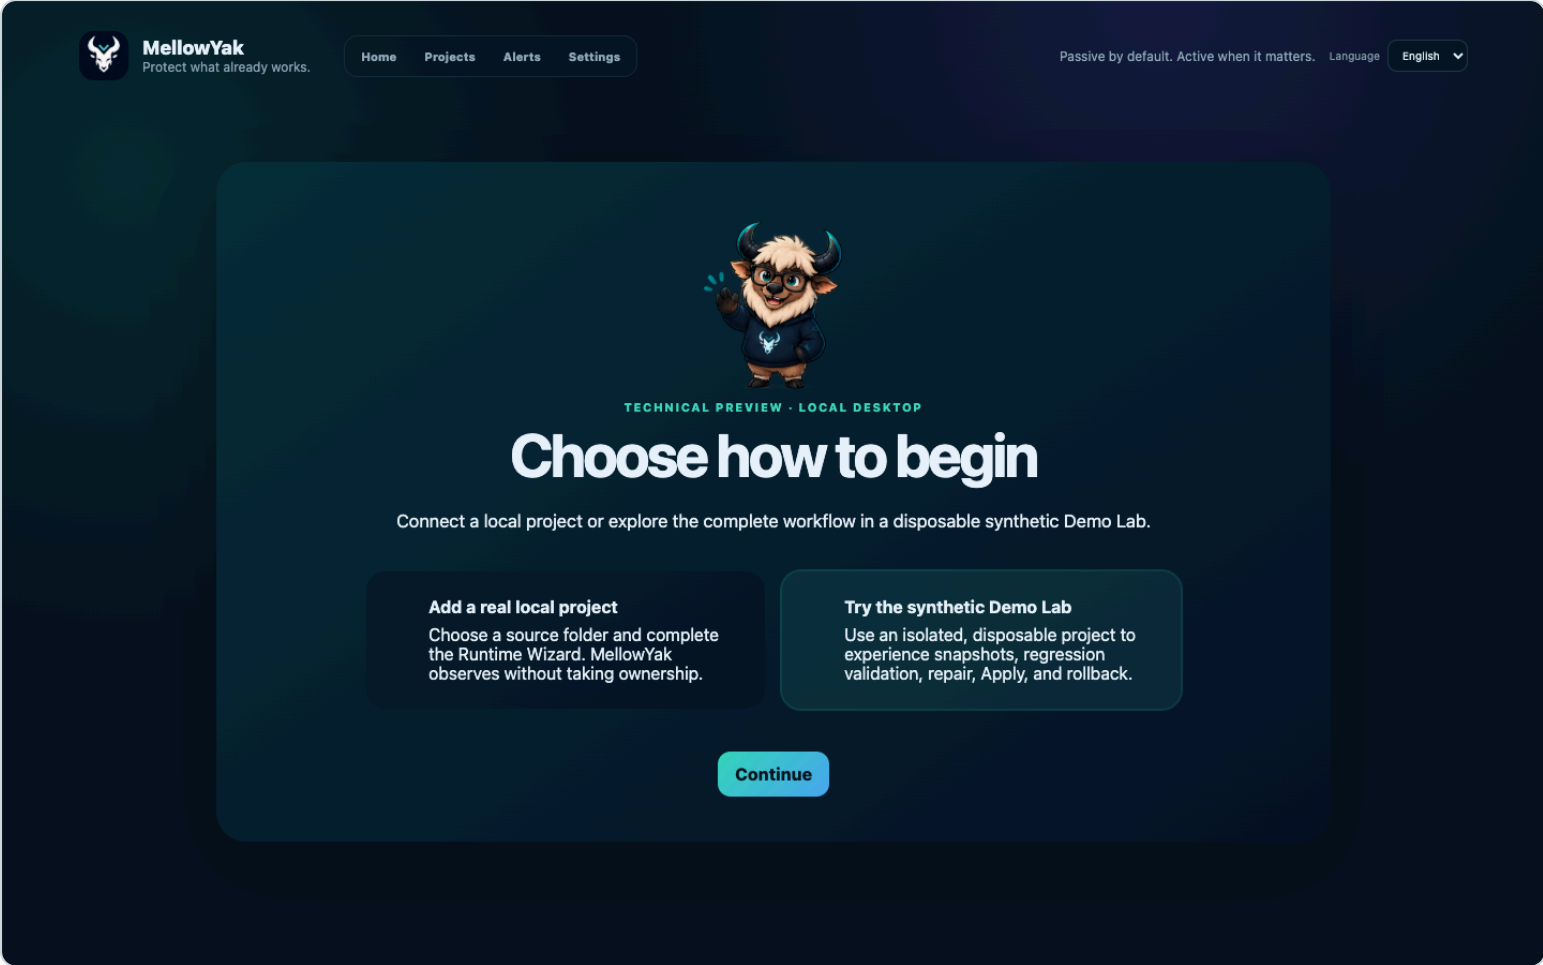

No real project or private user data is included.

00. First-run welcome

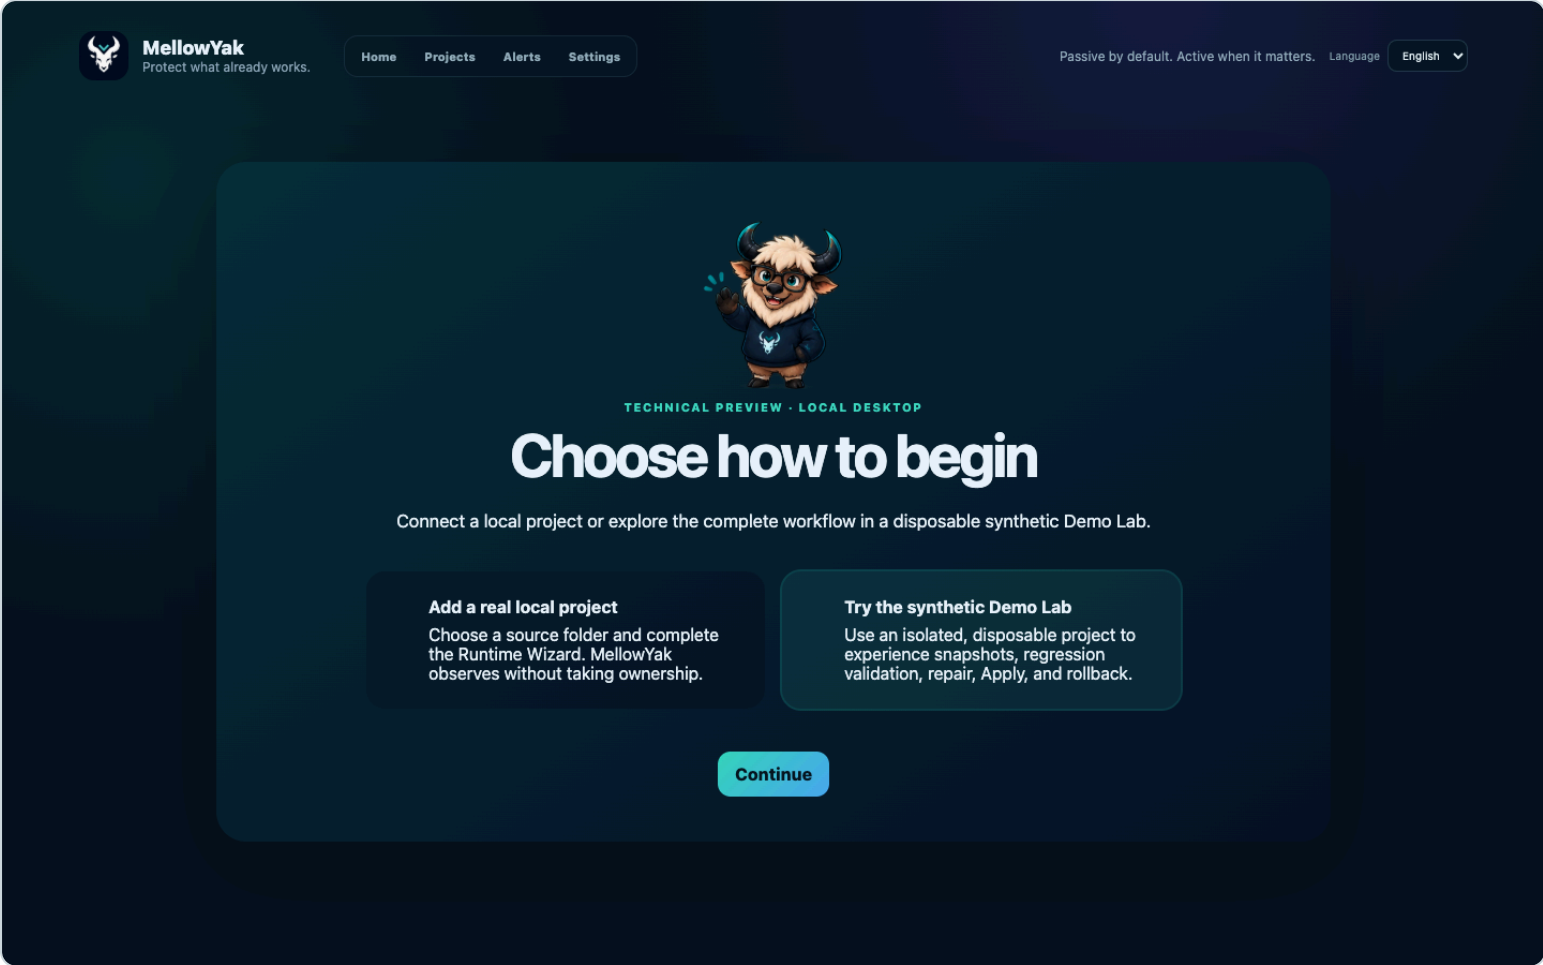

Purpose	Show the accessible, persisted path from welcome to the selected local destination.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Use the visible operational controls to continue to exact local context.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

01. Choose how to begin — unselected

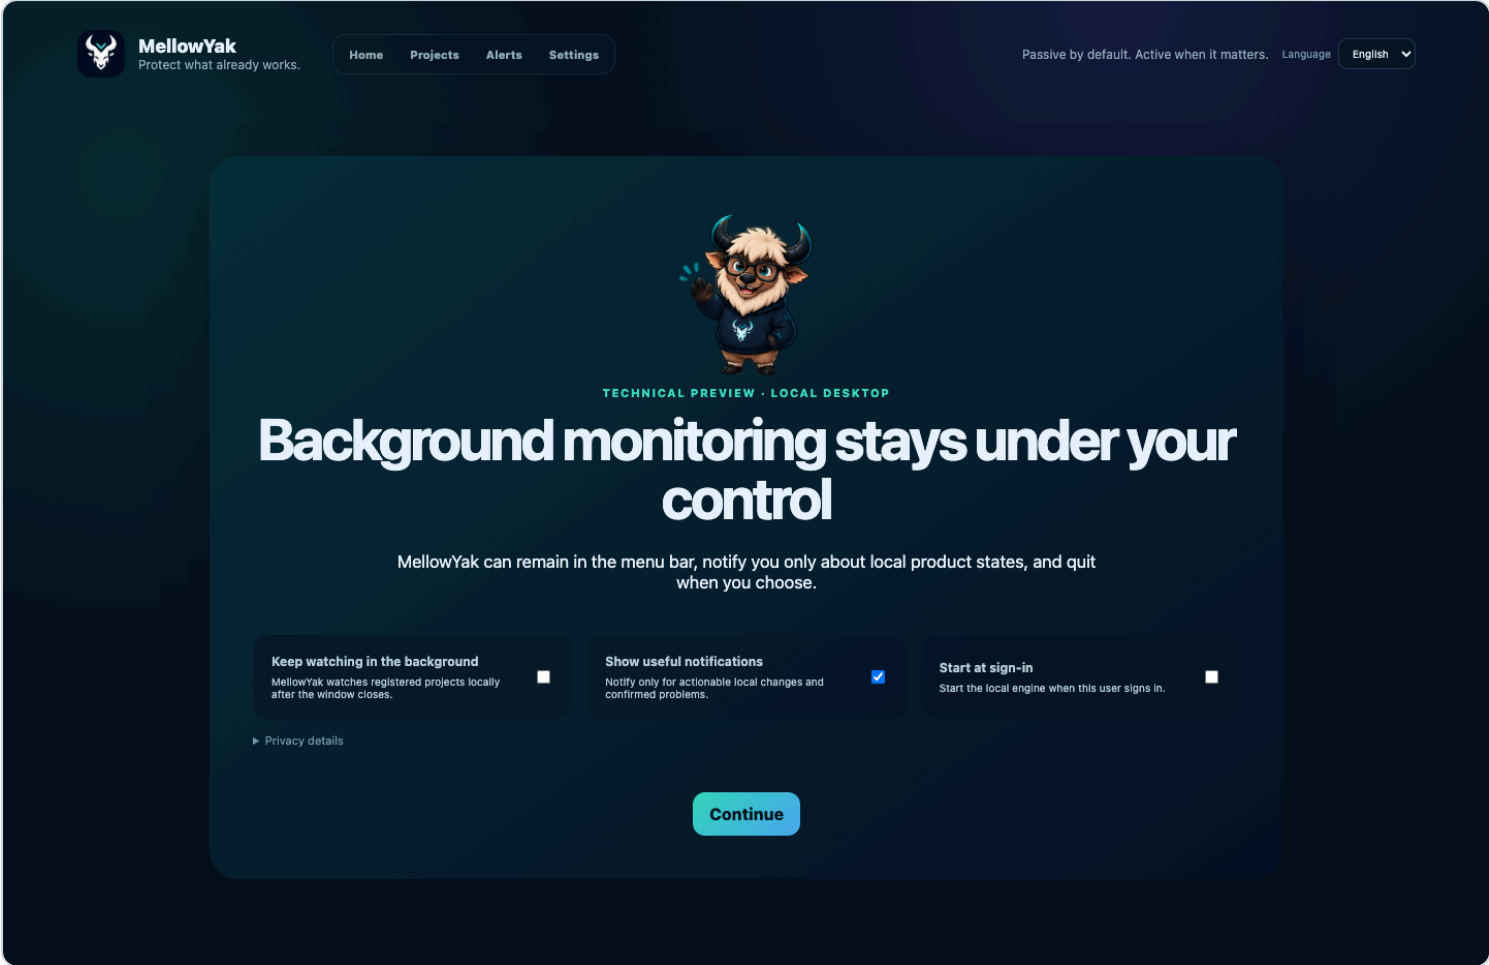

Purpose	Show the accessible, persisted path from welcome to the selected local destination.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Use the visible operational controls to continue to exact local context.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

02. Demo Lab selected

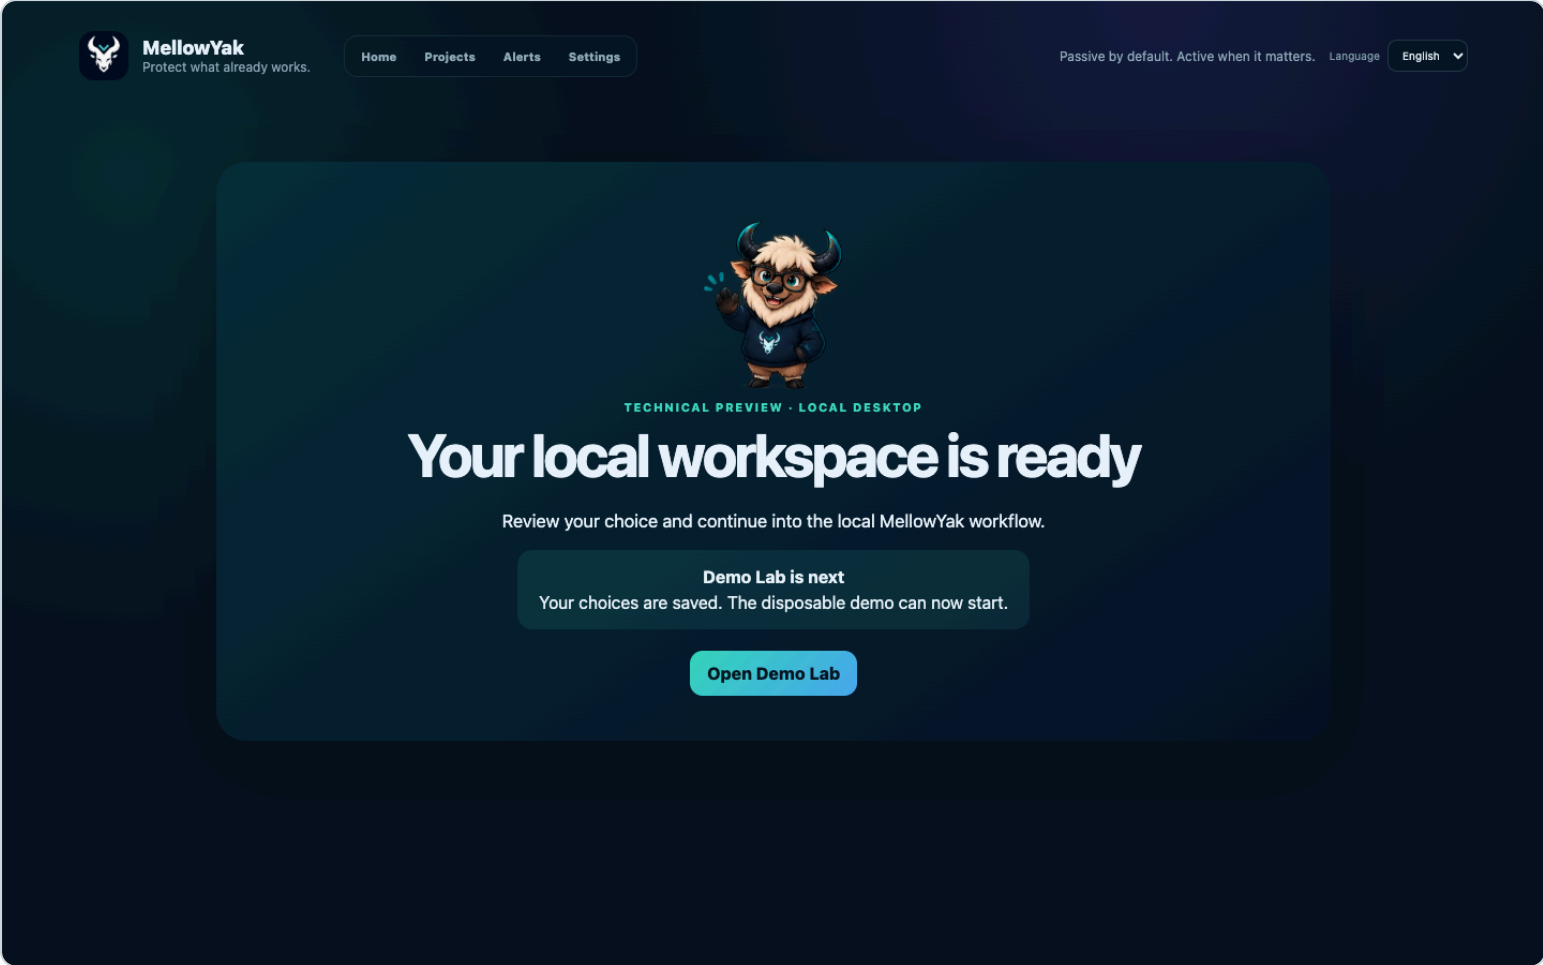

Purpose	Show the accessible, persisted path from welcome to the selected local destination.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Use the visible operational controls to continue to exact local context.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

03. Background behavior

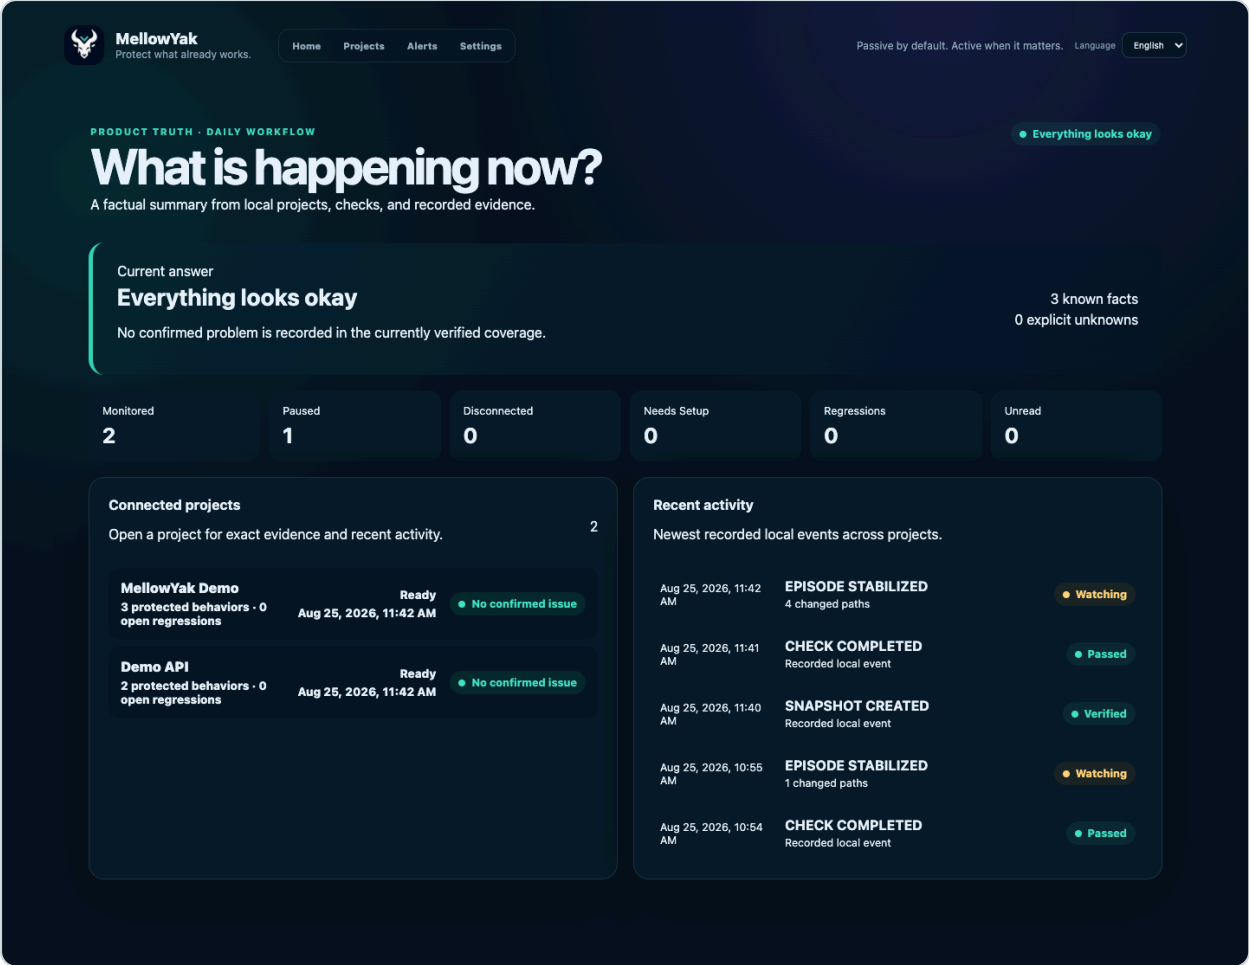

Purpose	Show the accessible, persisted path from welcome to the selected local destination.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Use the visible operational controls to continue to exact local context.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

04. Demo Lab ready

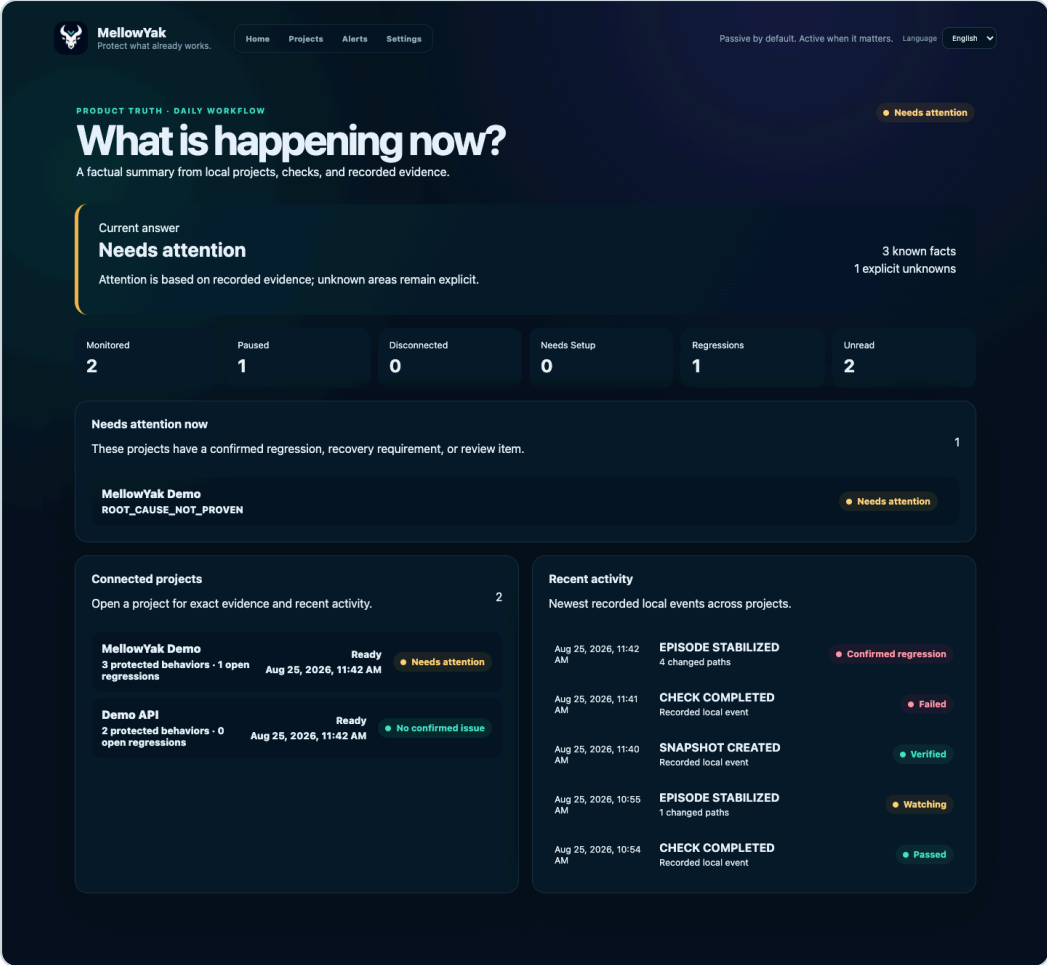

Purpose	Show the accessible, persisted path from welcome to the selected local destination.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Use the visible operational controls to continue to exact local context.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

05. Home — no confirmed issue

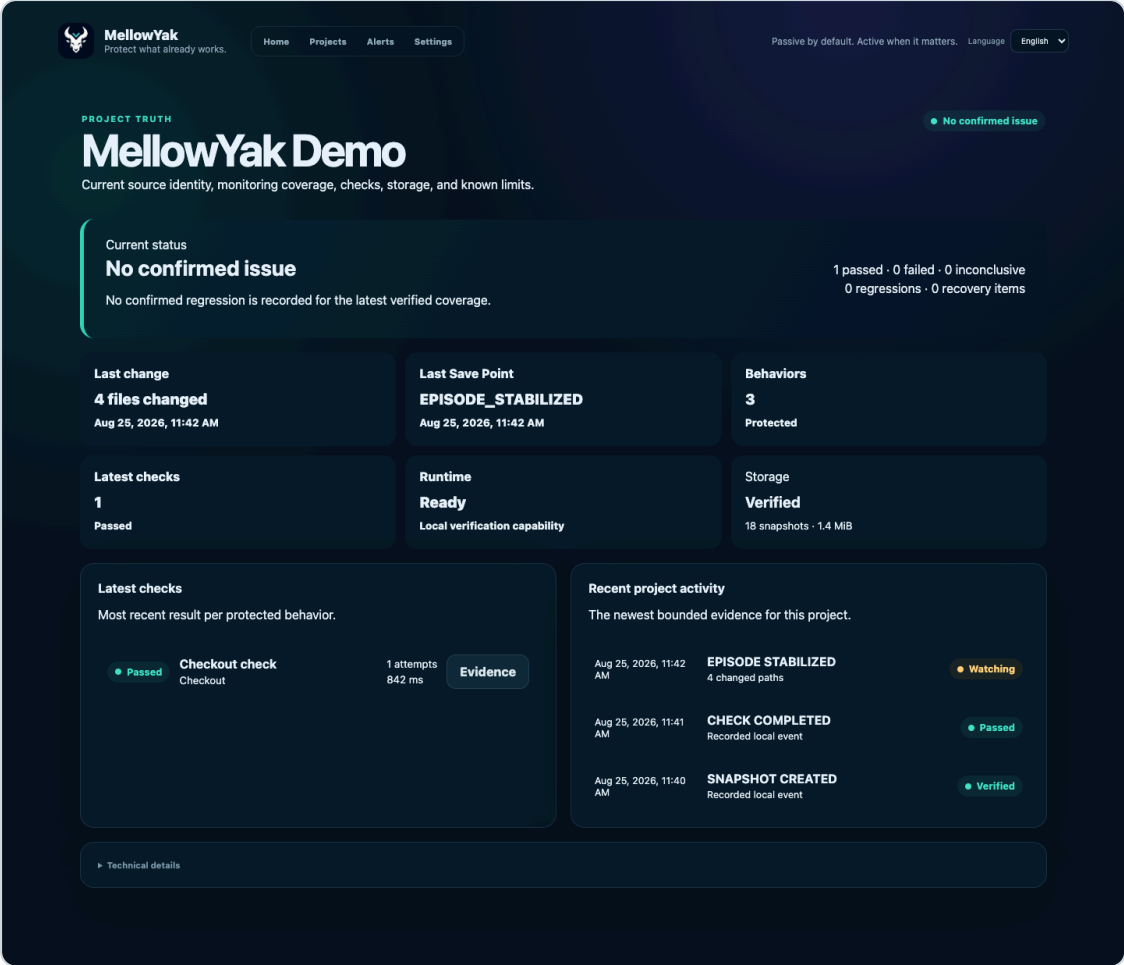

Purpose	Show the current product state, its evidence, limitations, and safe next action.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Use the visible operational controls to continue to exact local context.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

06. Home — attention required

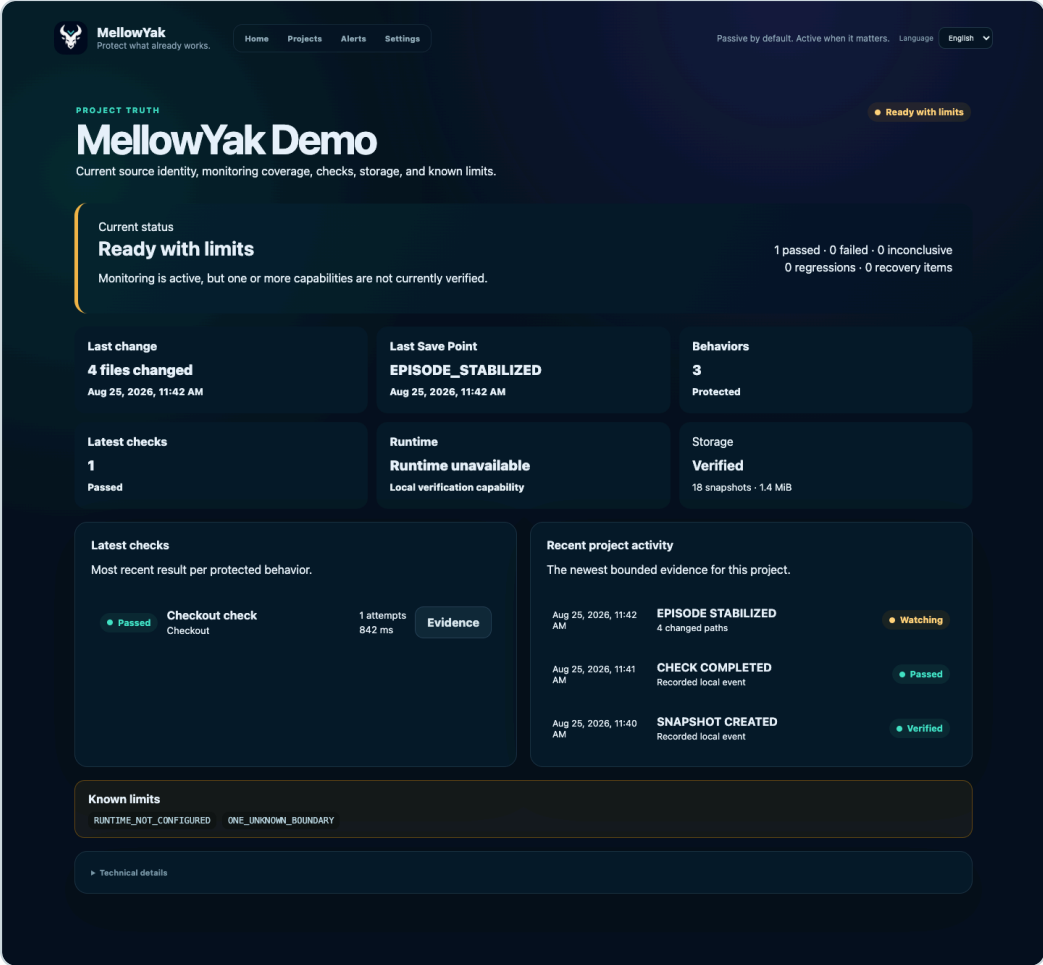

Purpose	Show the current product state, its evidence, limitations, and safe next action.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Use the visible operational controls to continue to exact local context.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

07. Project Overview — current evidence

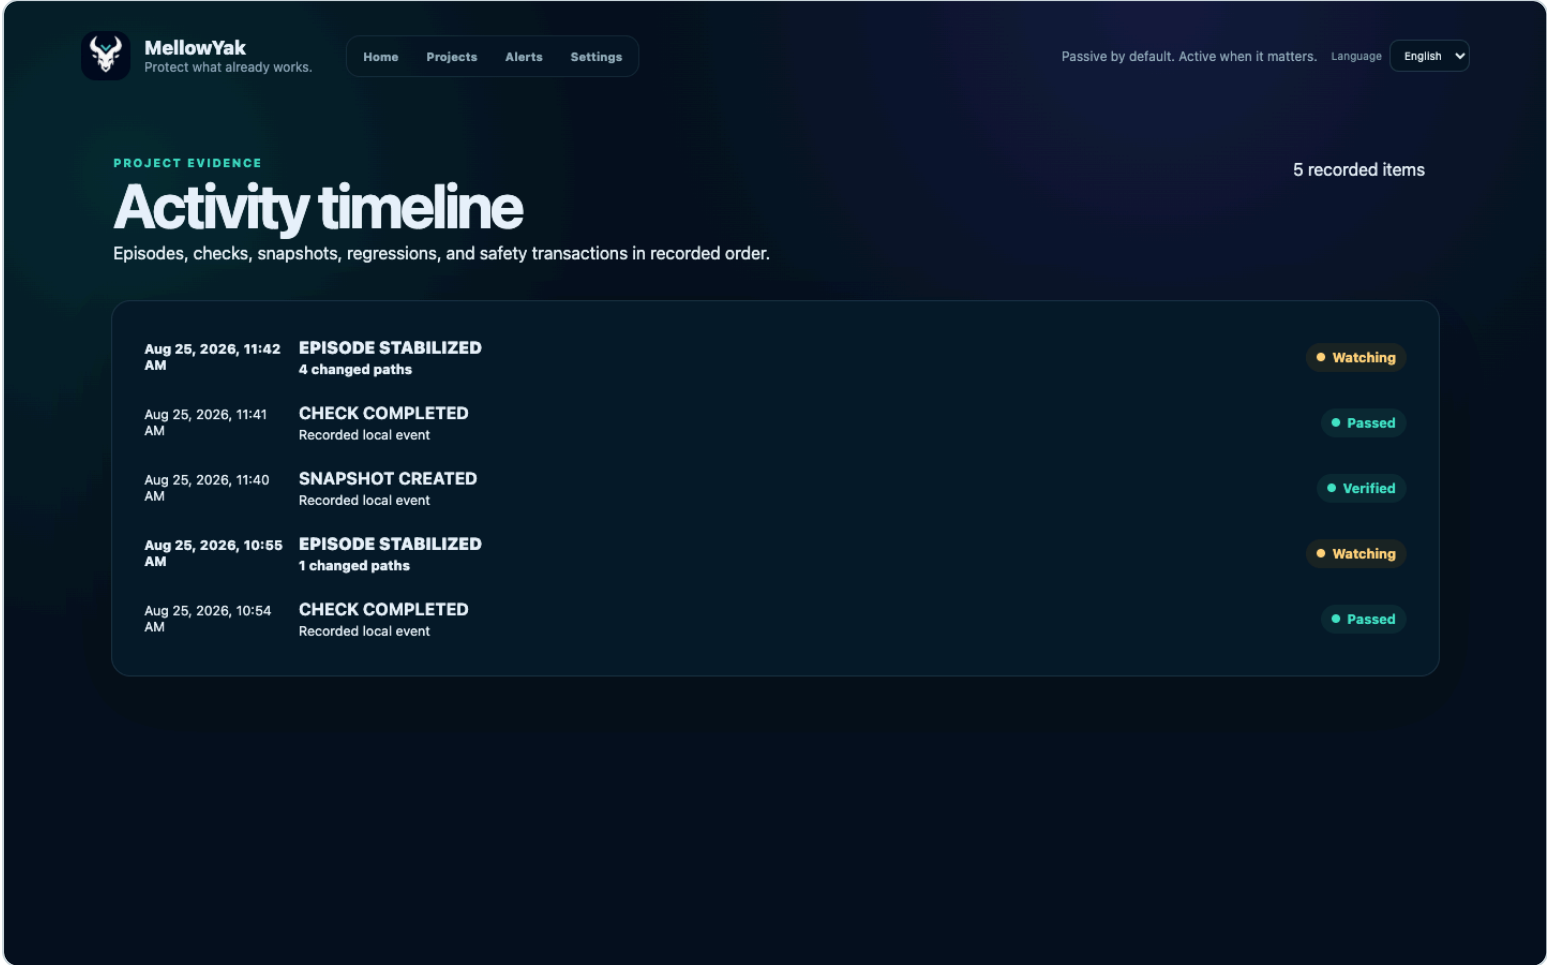

Purpose	Show the current product state, its evidence, limitations, and safe next action.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Use the visible operational controls to continue to exact local context.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

08. Project Overview — ready with limits

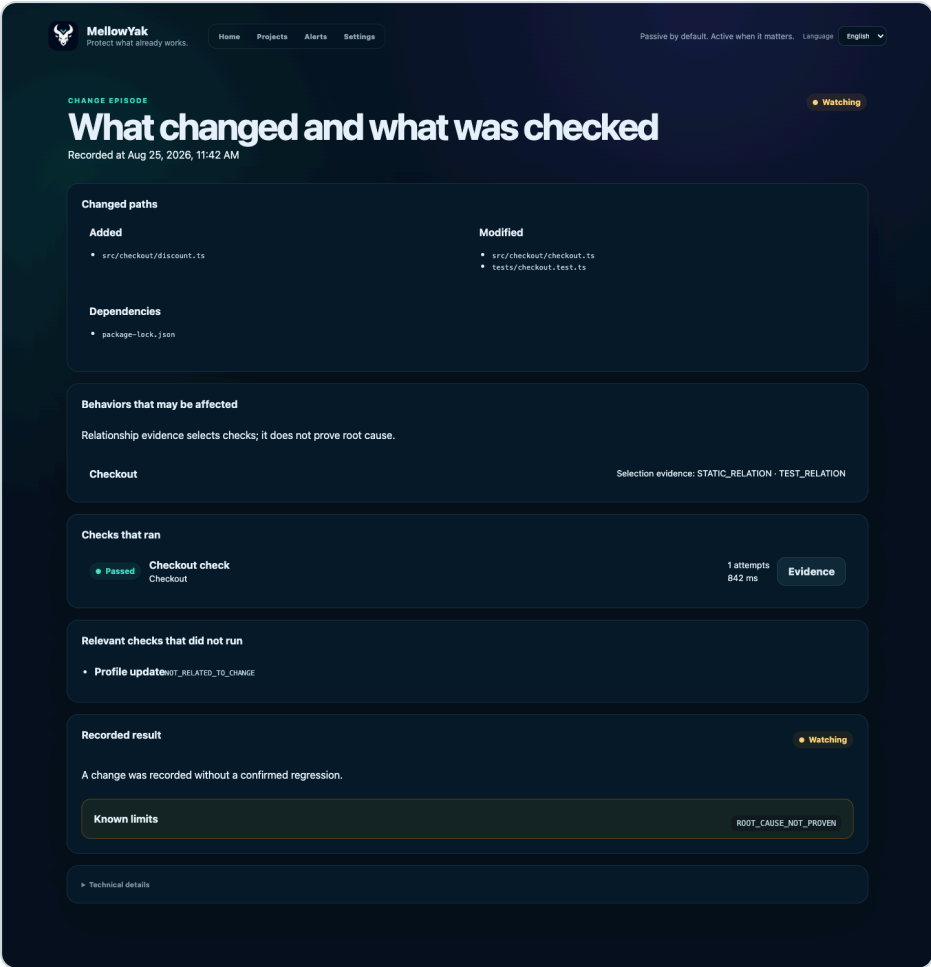

Purpose	Show the current product state, its evidence, limitations, and safe next action.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Use the visible operational controls to continue to exact local context.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

09. Project activity timeline

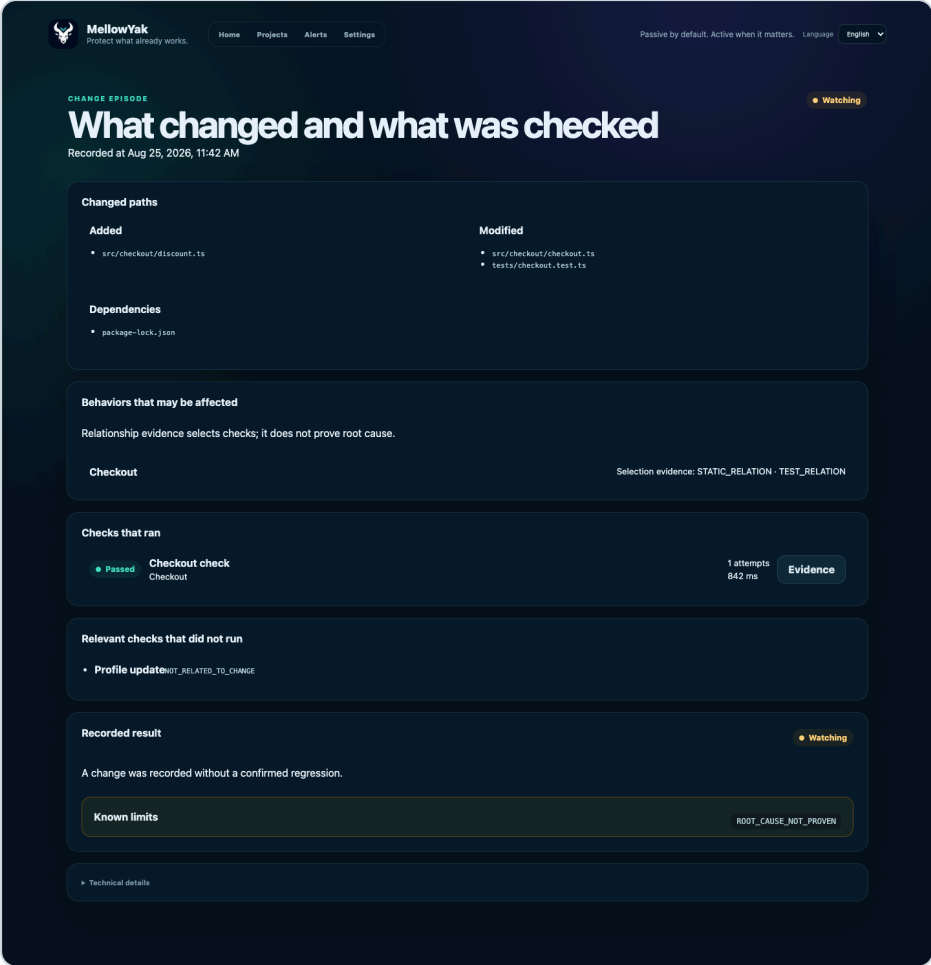

Purpose	Show the current product state, its evidence, limitations, and safe next action.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Use the visible operational controls to continue to exact local context.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

10. Episode detail

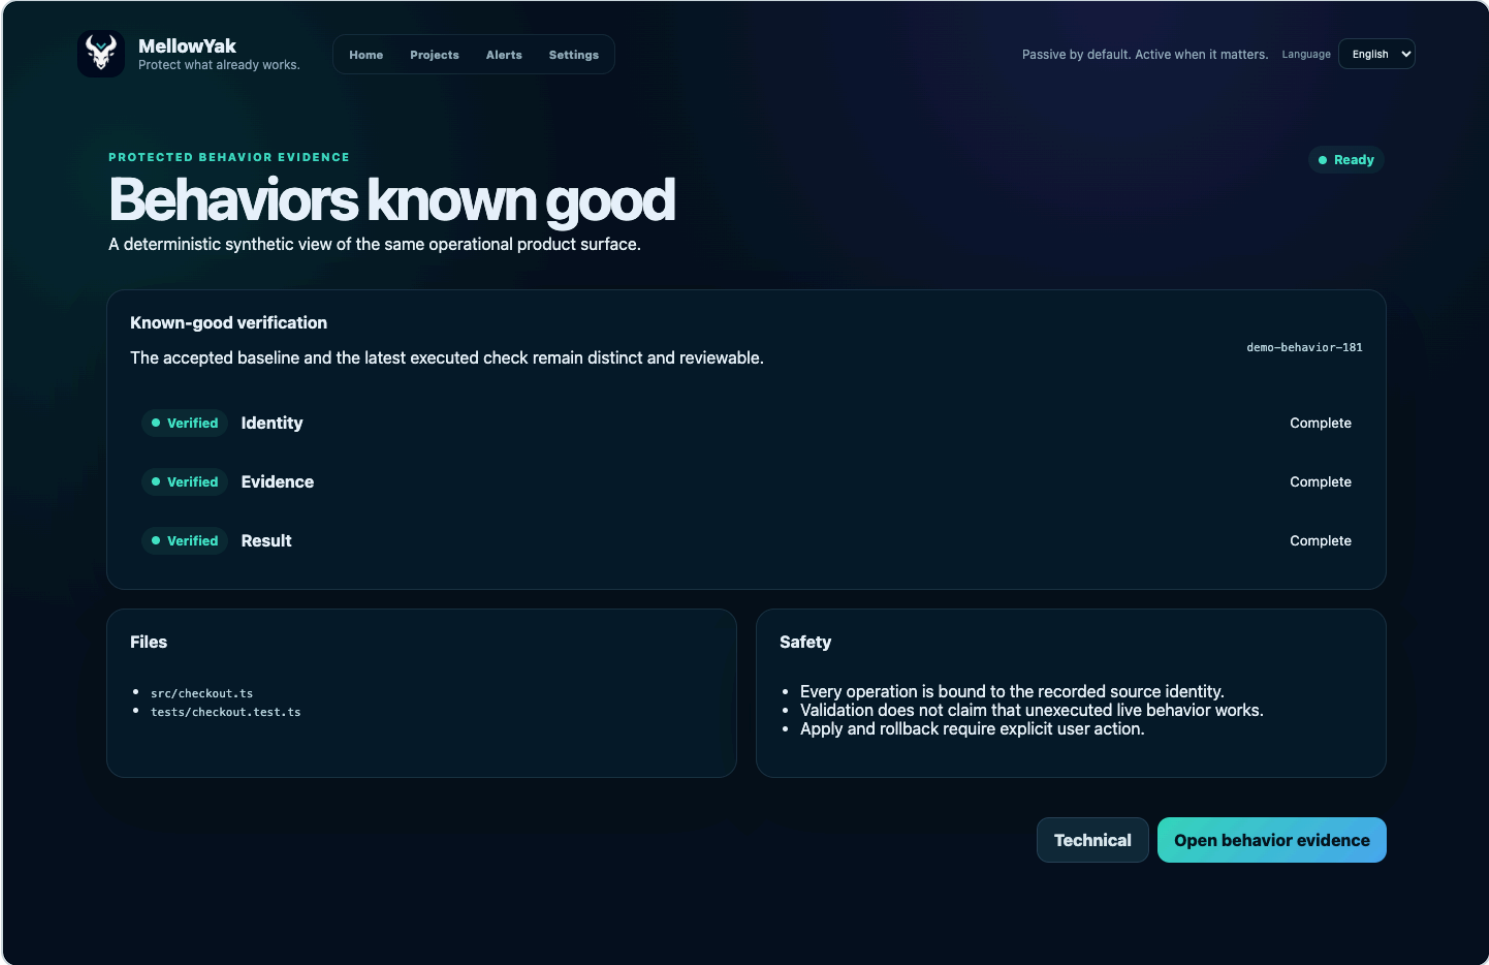

Purpose	Show the current product state, its evidence, limitations, and safe next action.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Use the visible operational controls to continue to exact local context.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

11. Check passed — no regression

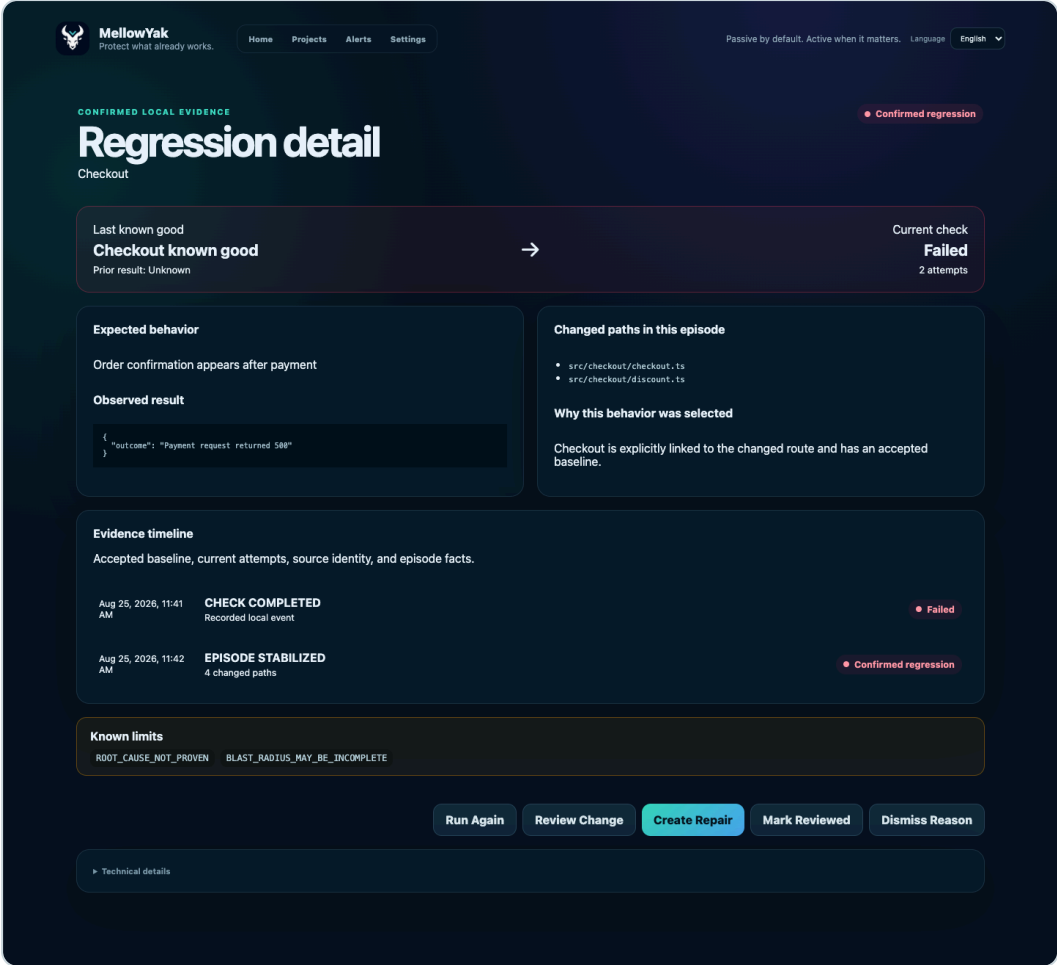

Purpose	Show the current product state, its evidence, limitations, and safe next action.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Review evidence, run again, or create a Repair Workspace.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

12. Known-good behavior

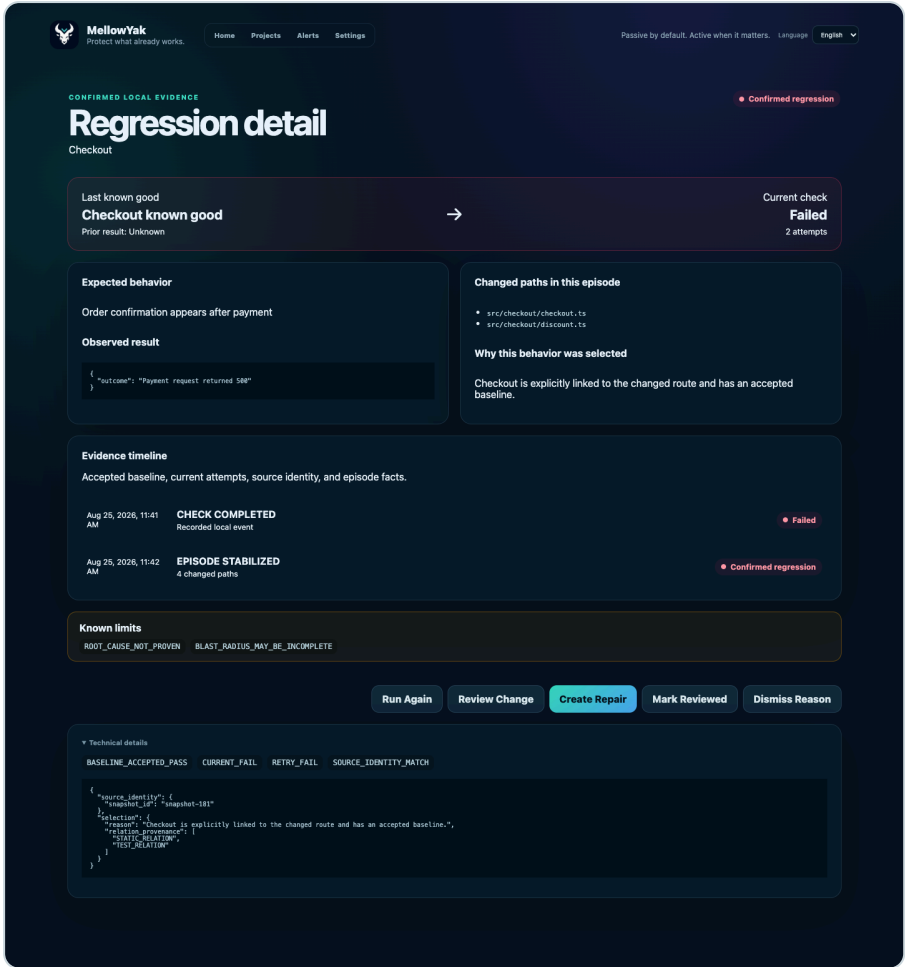

Purpose	Show the current product state, its evidence, limitations, and safe next action.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Use the visible operational controls to continue to exact local context.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

13. Regression detail — friendly

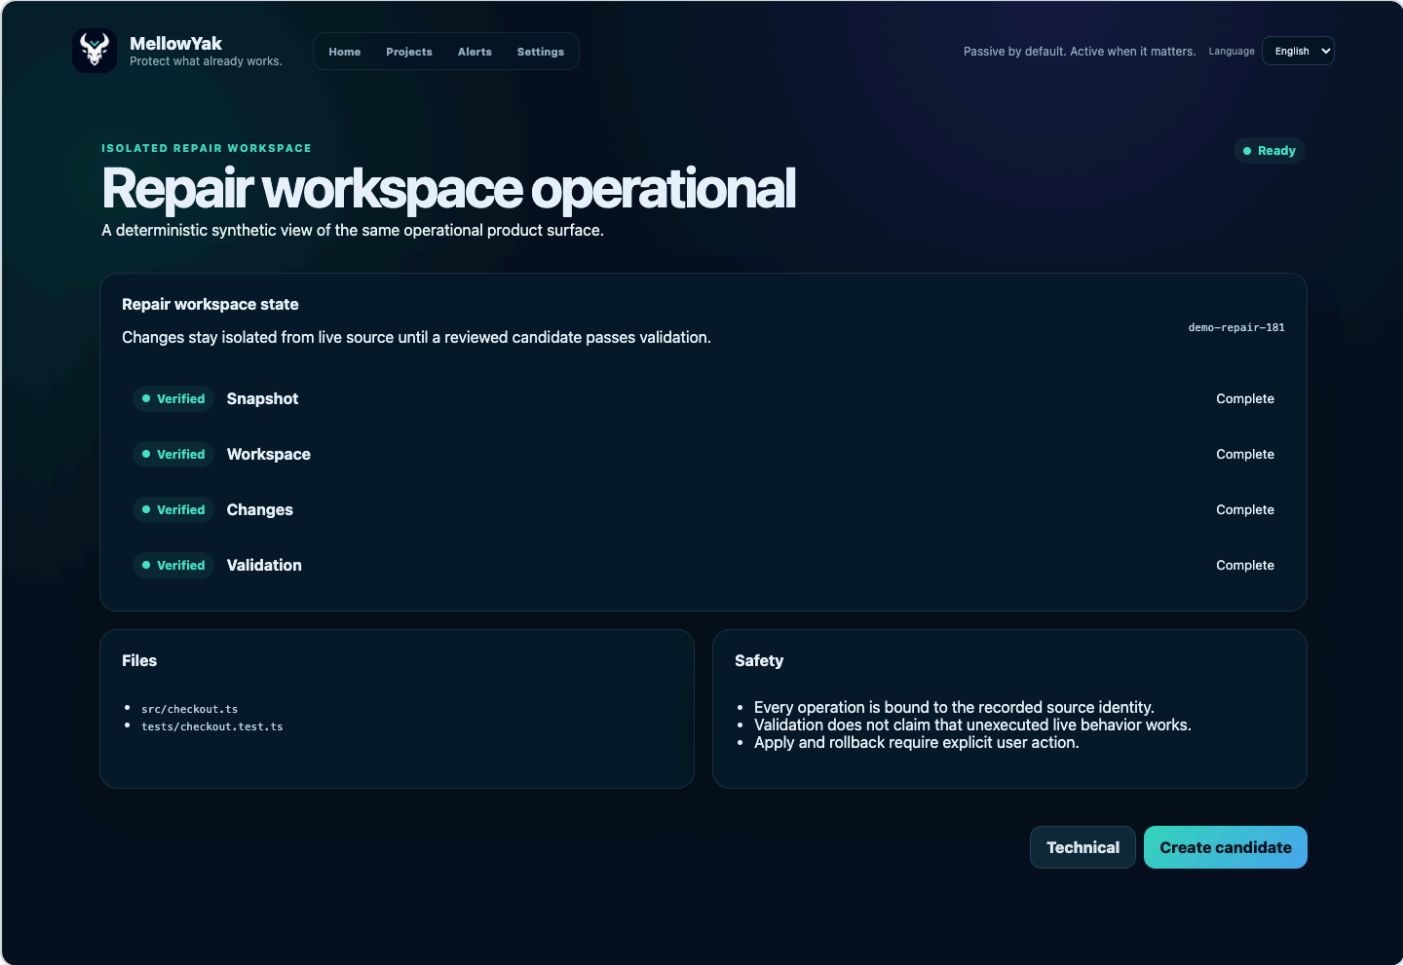

Purpose	Show the current product state, its evidence, limitations, and safe next action.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Review evidence, run again, or create a Repair Workspace.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

14. Regression detail — technical evidence

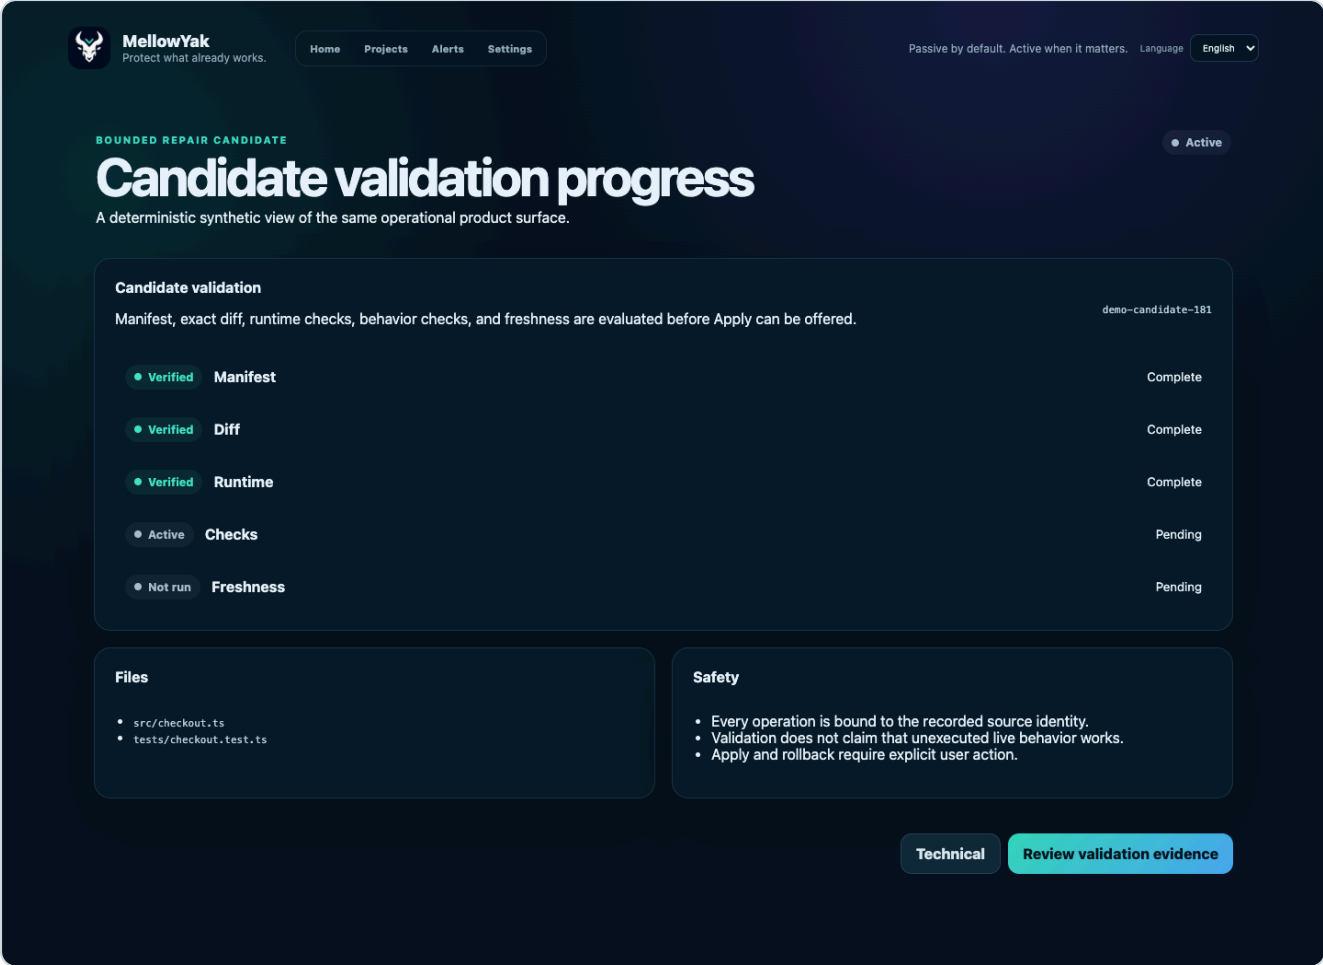

Purpose	Show the current product state, its evidence, limitations, and safe next action.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Review evidence, run again, or create a Repair Workspace.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

15. Repair Workspace

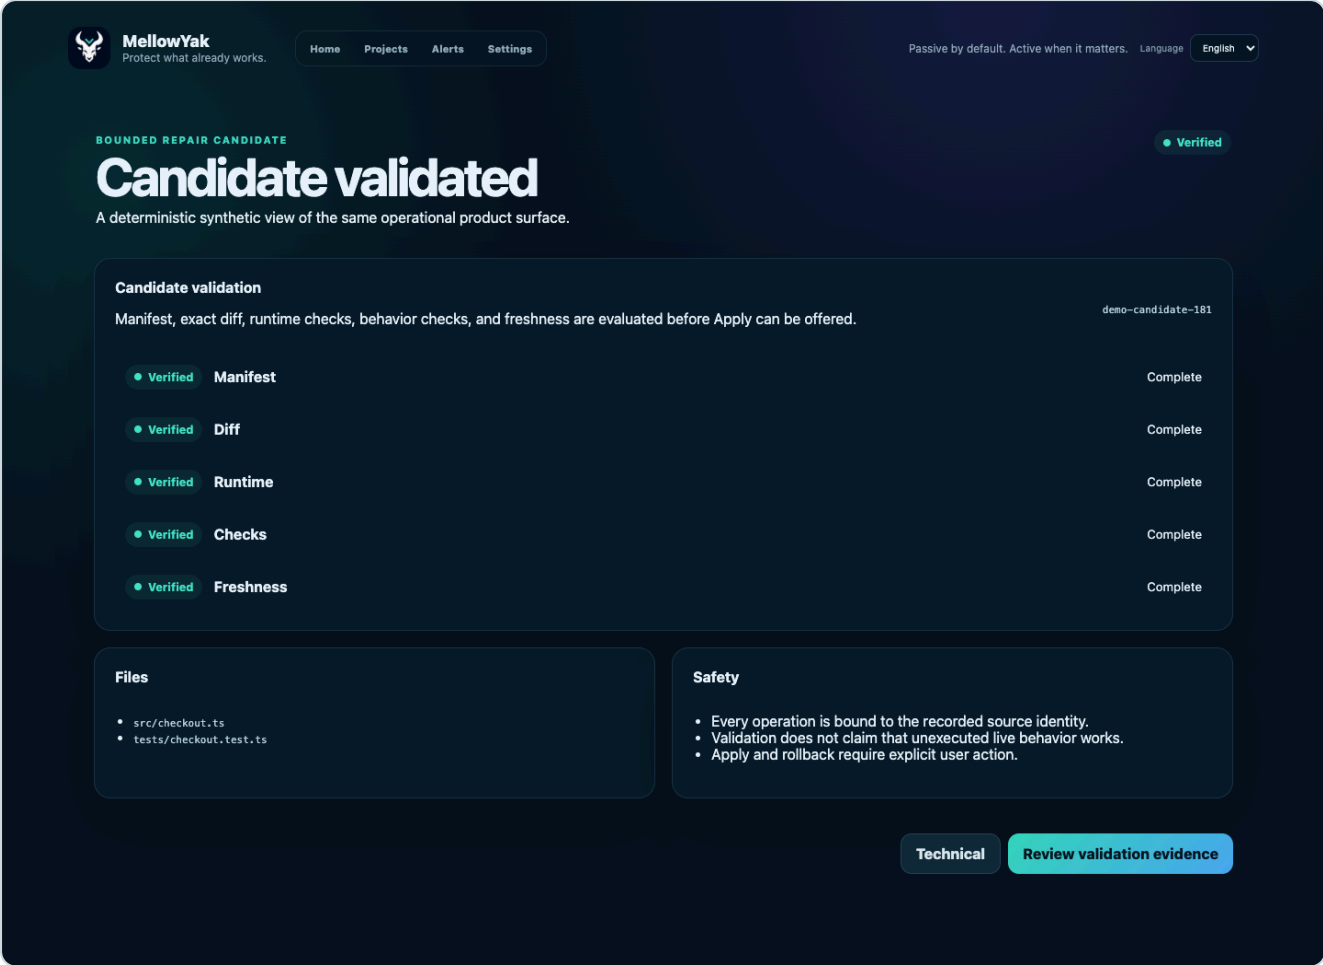

Purpose	Show the current product state, its evidence, limitations, and safe next action.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Use the visible operational controls to continue to exact local context.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

16. Candidate validation in progress

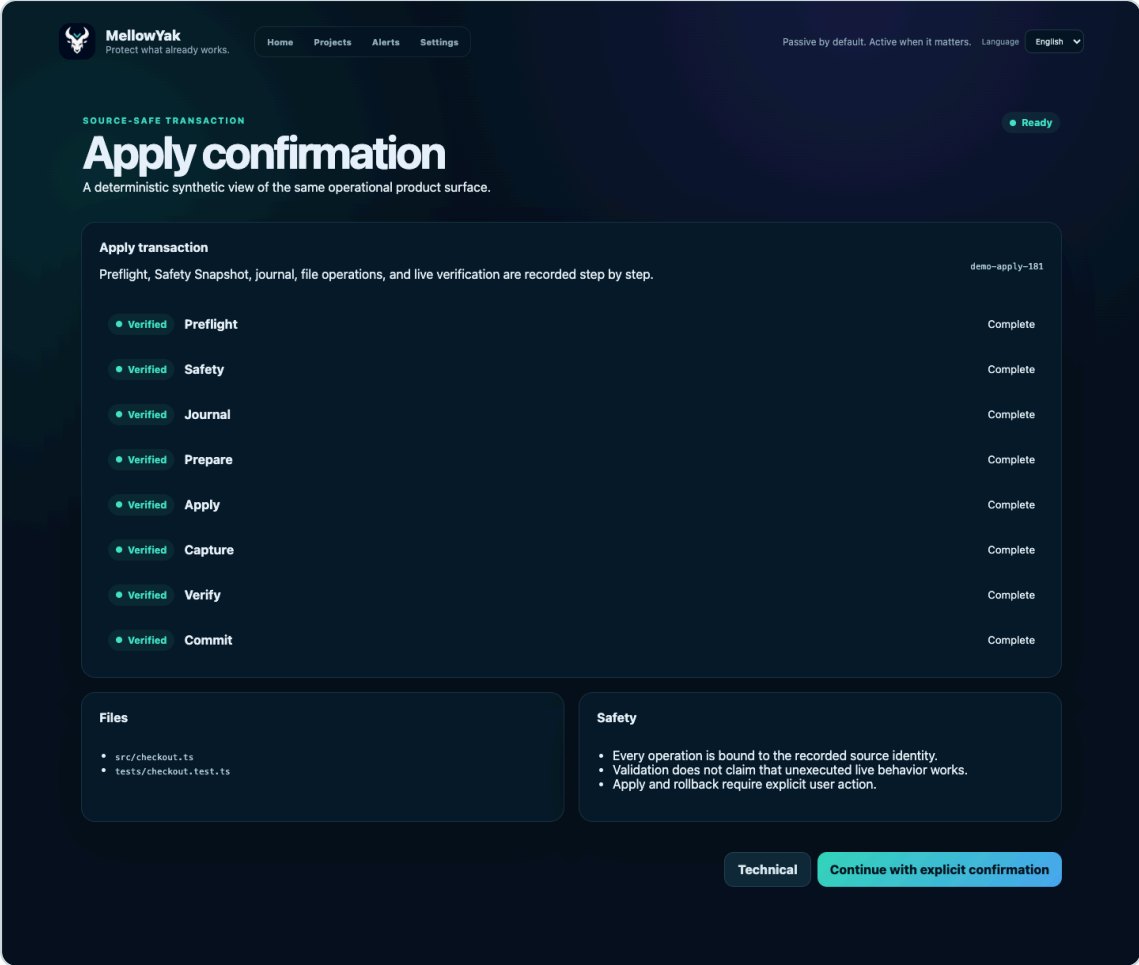

Purpose	Show the current product state, its evidence, limitations, and safe next action.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Use the visible operational controls to continue to exact local context.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

17. Candidate validated

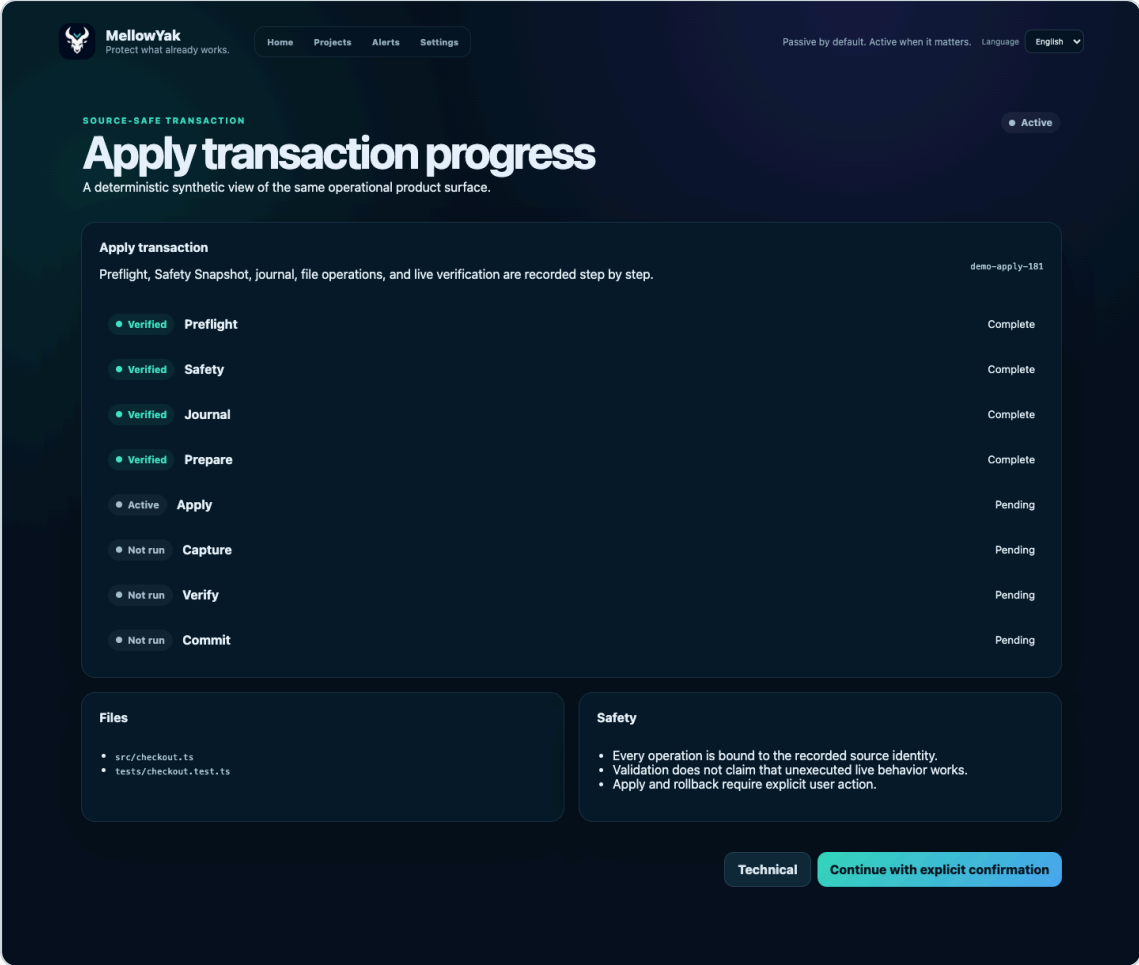

Purpose	Show the current product state, its evidence, limitations, and safe next action.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Use the visible operational controls to continue to exact local context.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

18. Apply confirmation

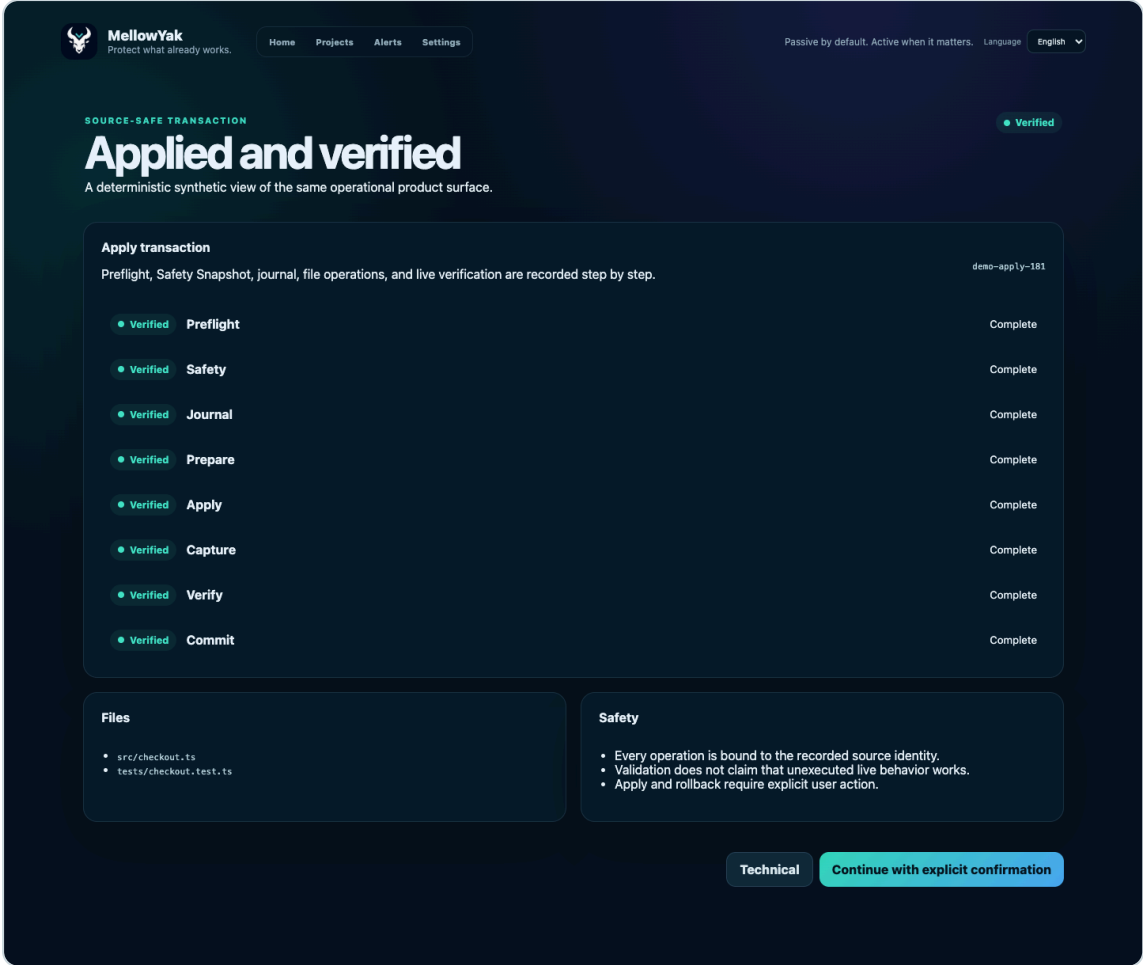

Purpose	Show the current product state, its evidence, limitations, and safe next action.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Review the explicit source-bound transaction and continue only by deliberate action.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

19. Apply transaction progress

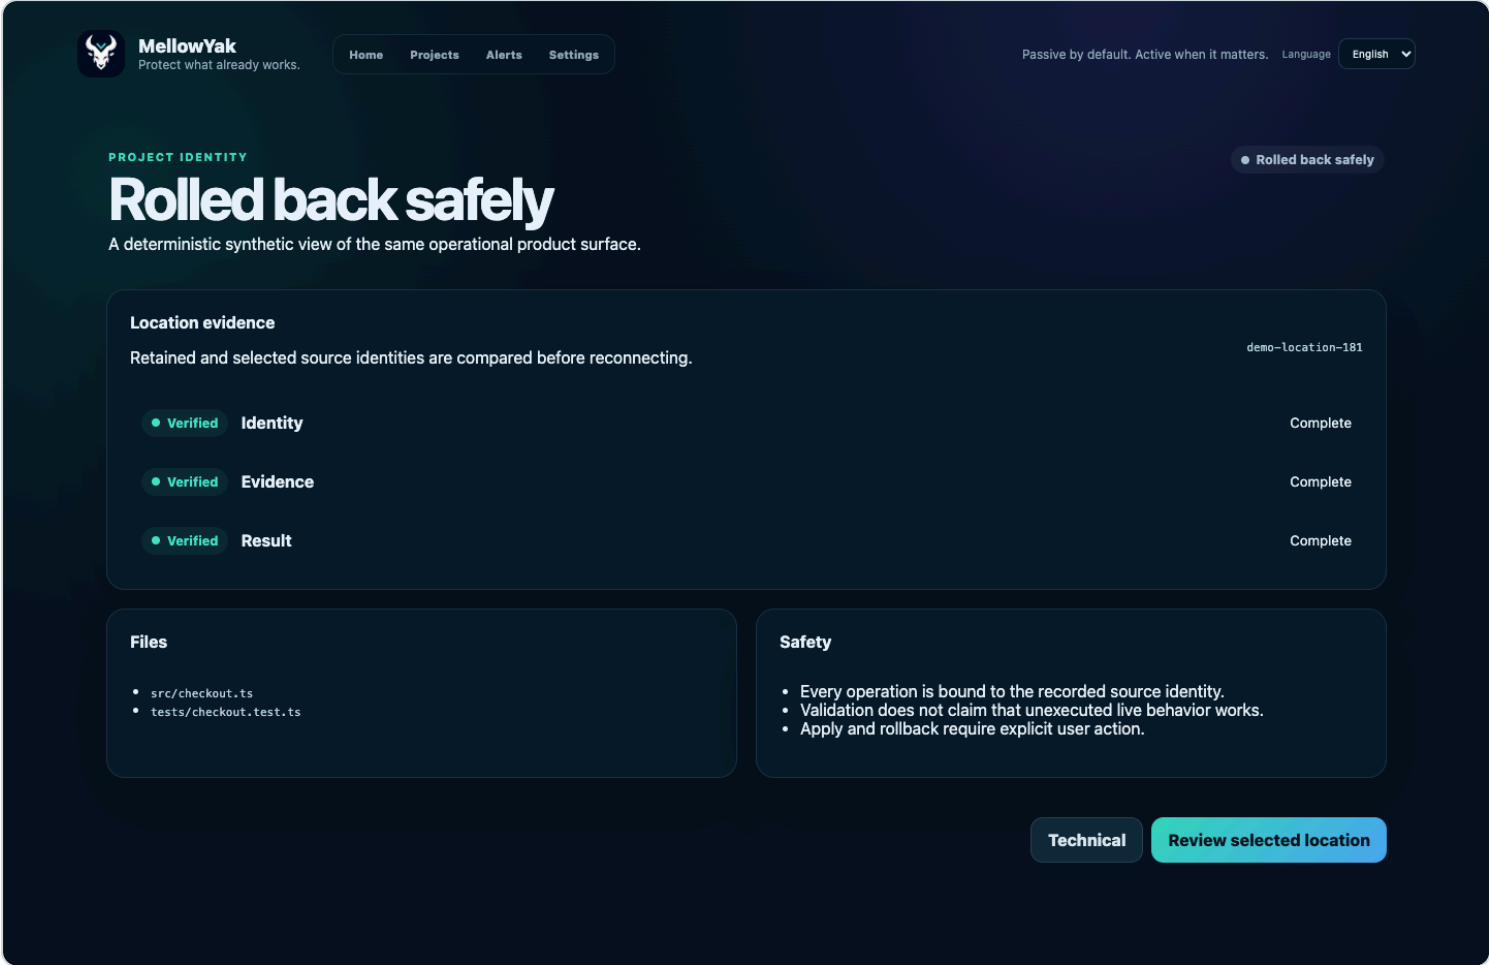

Purpose	Show the current product state, its evidence, limitations, and safe next action.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Review the explicit source-bound transaction and continue only by deliberate action.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

20. Applied and verified

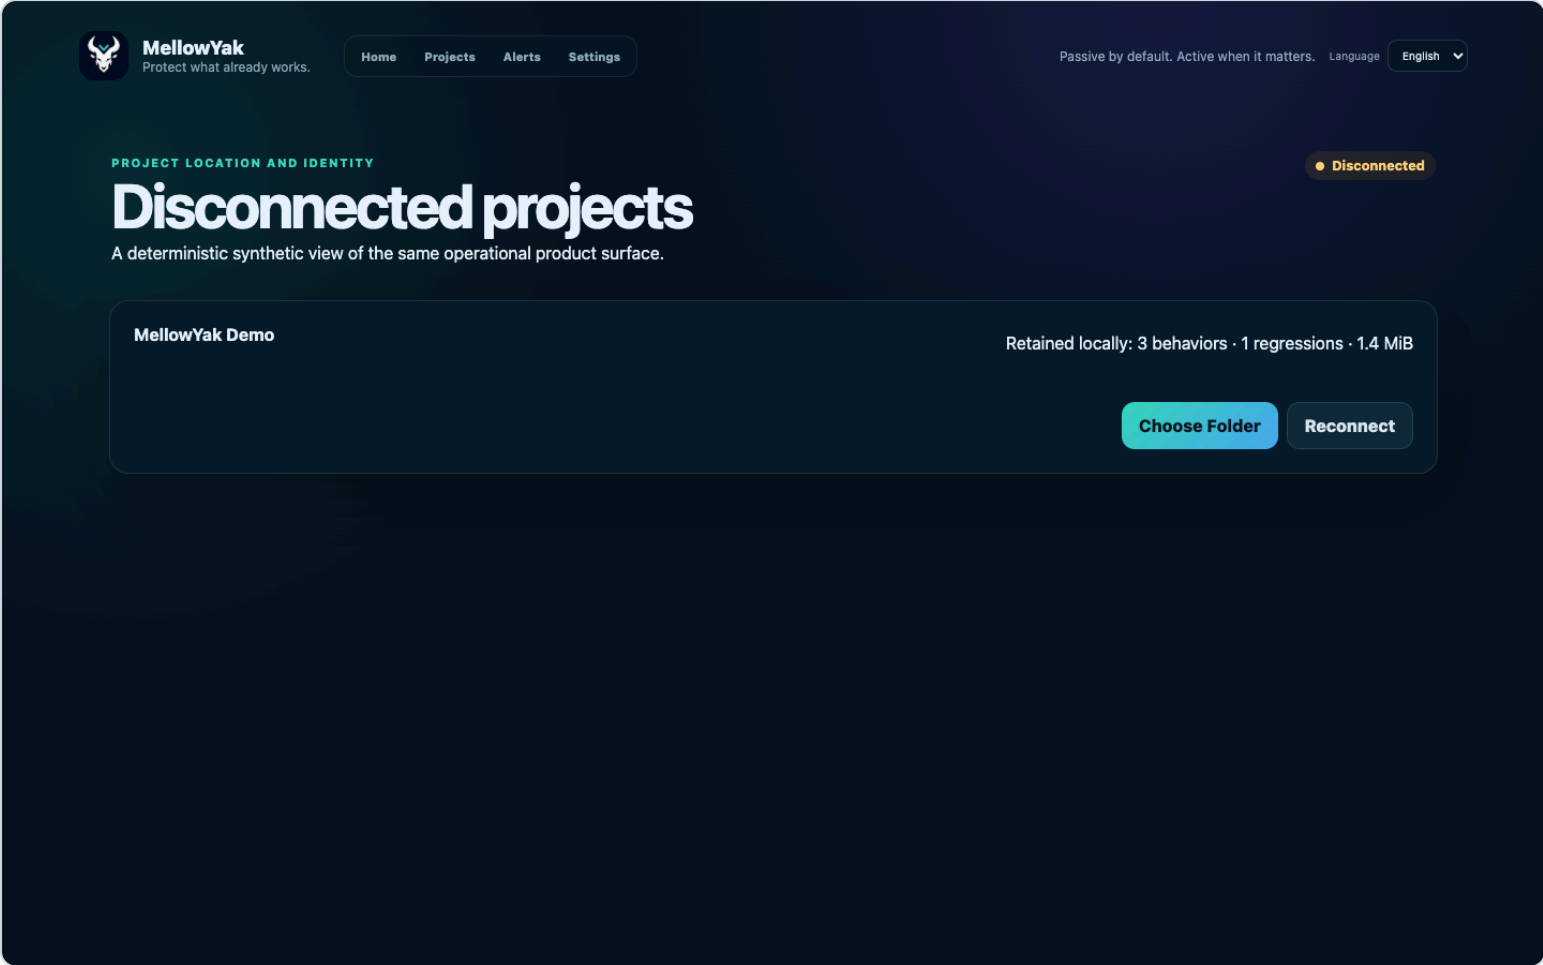

Purpose	Show the current product state, its evidence, limitations, and safe next action.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Use the visible operational controls to continue to exact local context.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

21. Rolled back safely

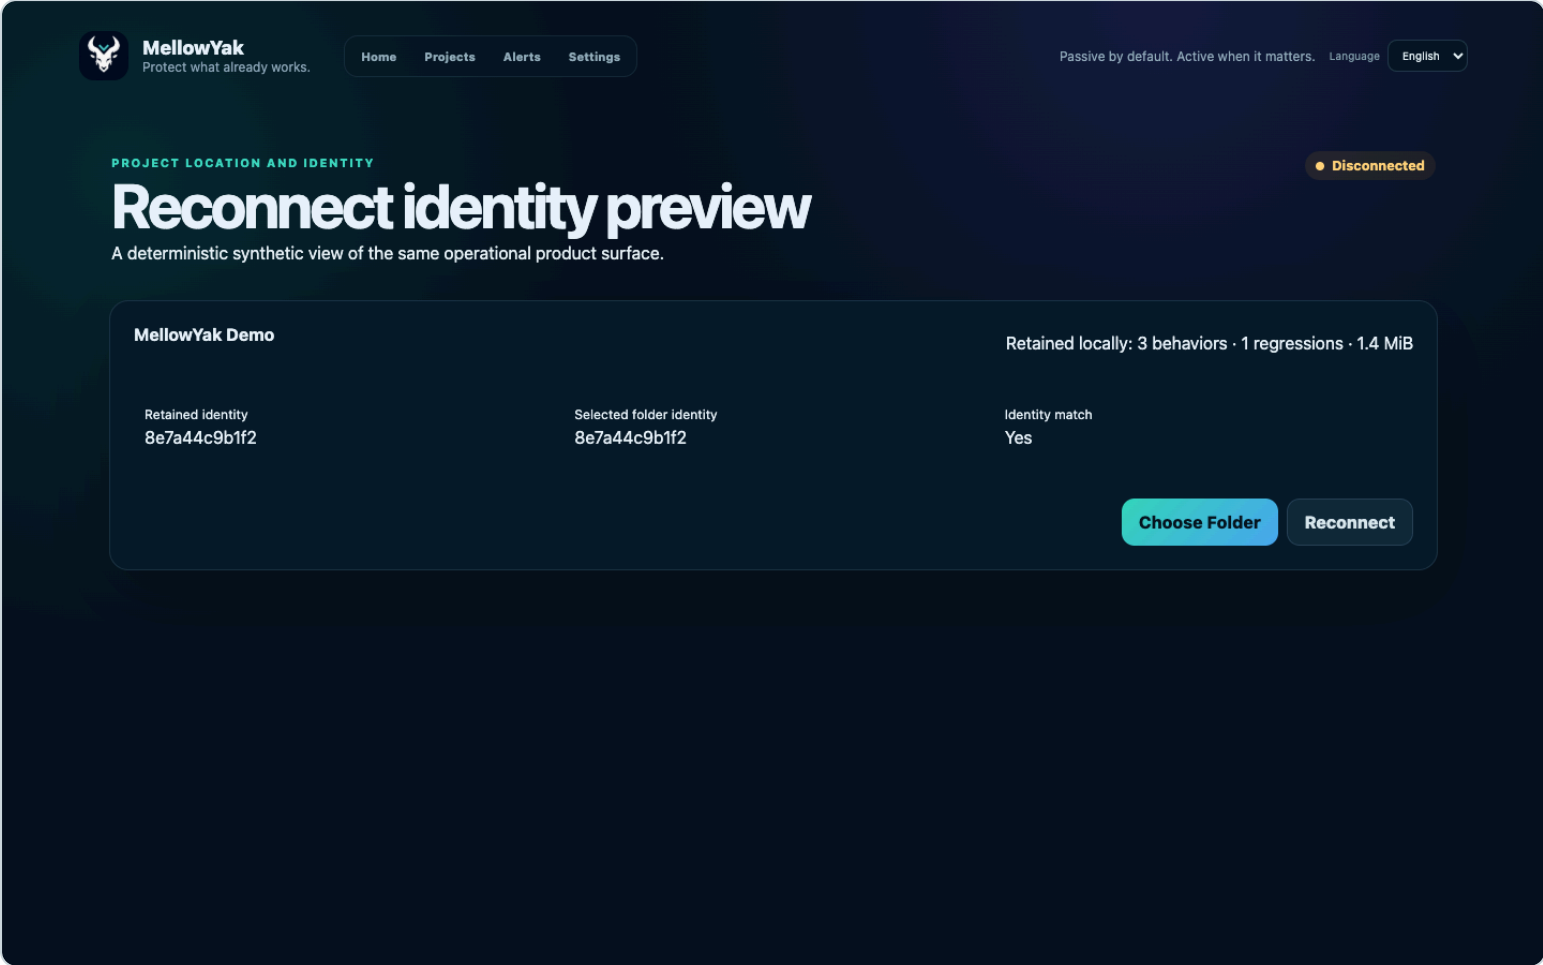

Purpose	Show the current product state, its evidence, limitations, and safe next action.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Use the visible operational controls to continue to exact local context.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

22. Disconnected projects

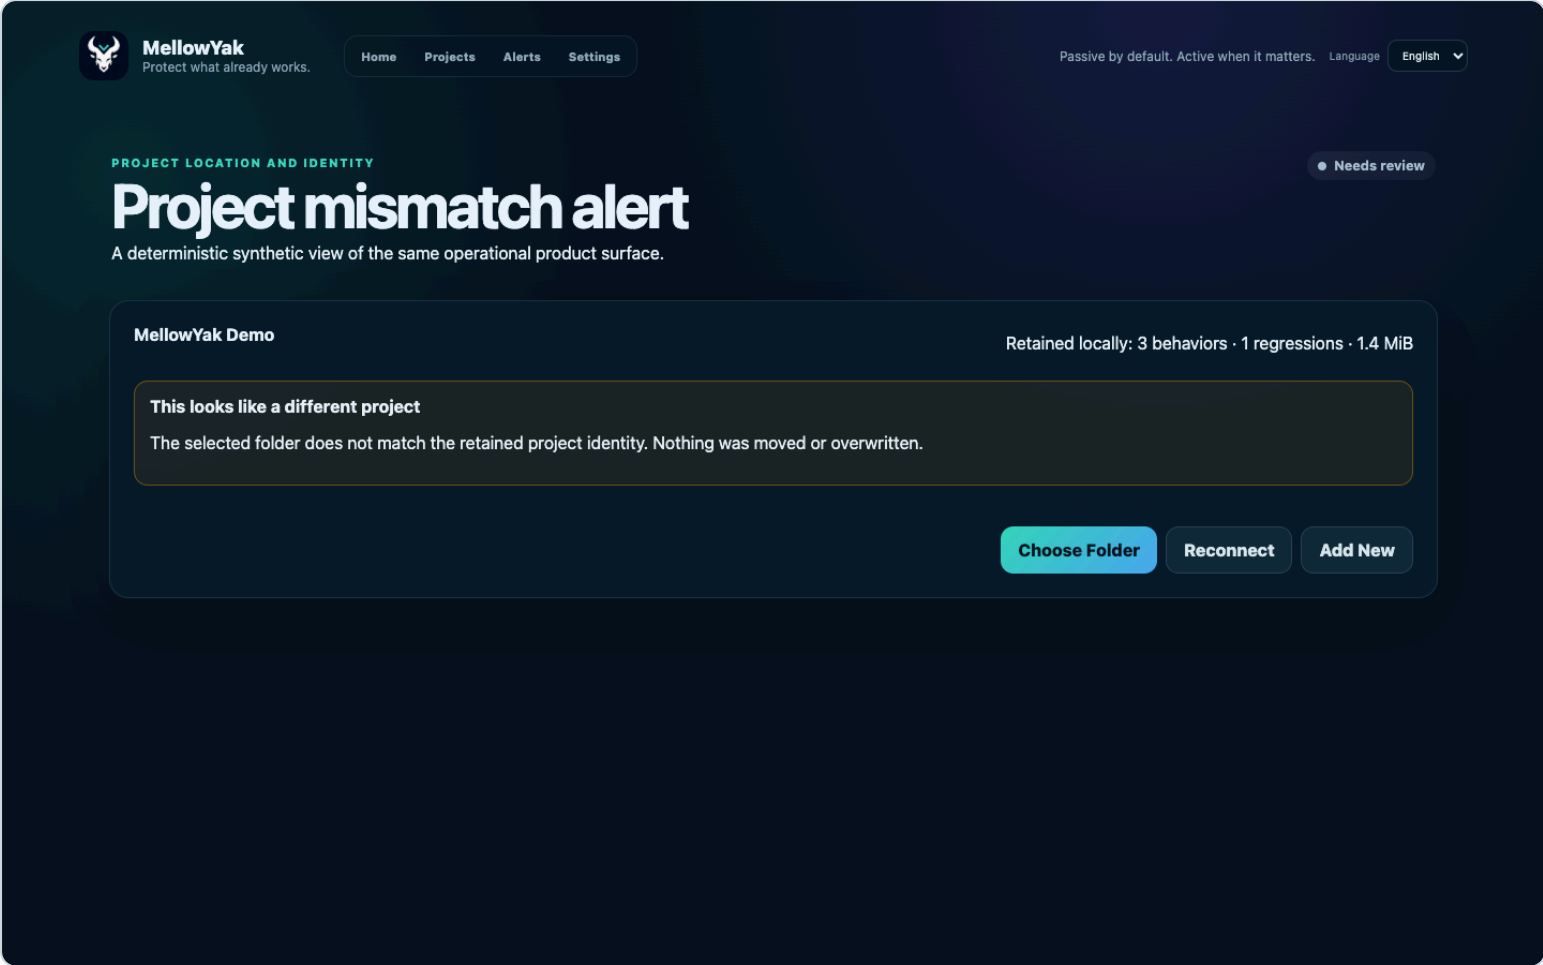

Purpose	Show the current product state, its evidence, limitations, and safe next action.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Use the visible operational controls to continue to exact local context.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

23. Reconnect identity preview

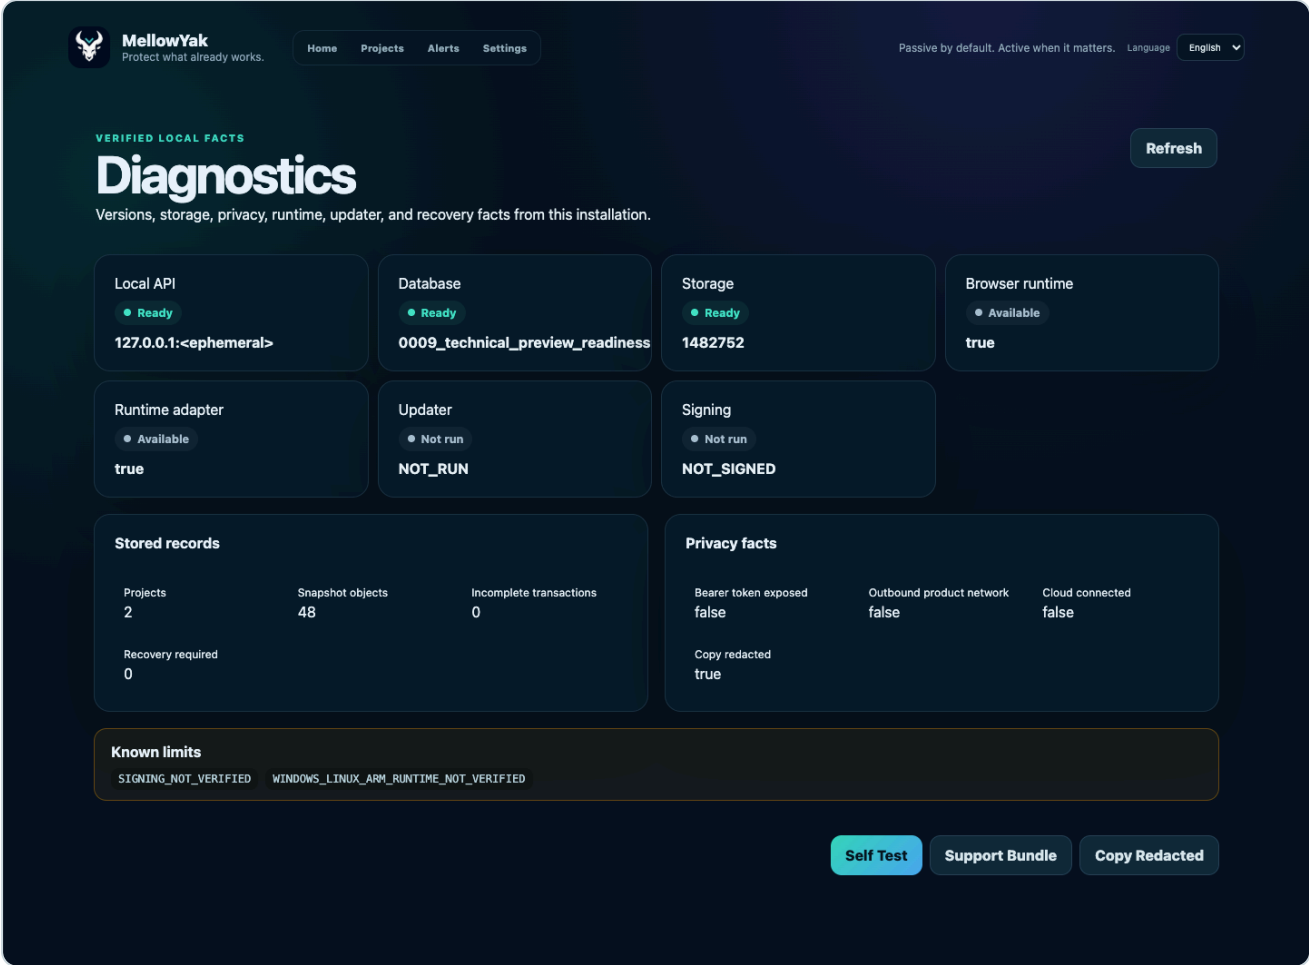

Purpose	Show the current product state, its evidence, limitations, and safe next action.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Use the visible operational controls to continue to exact local context.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

24. Project mismatch

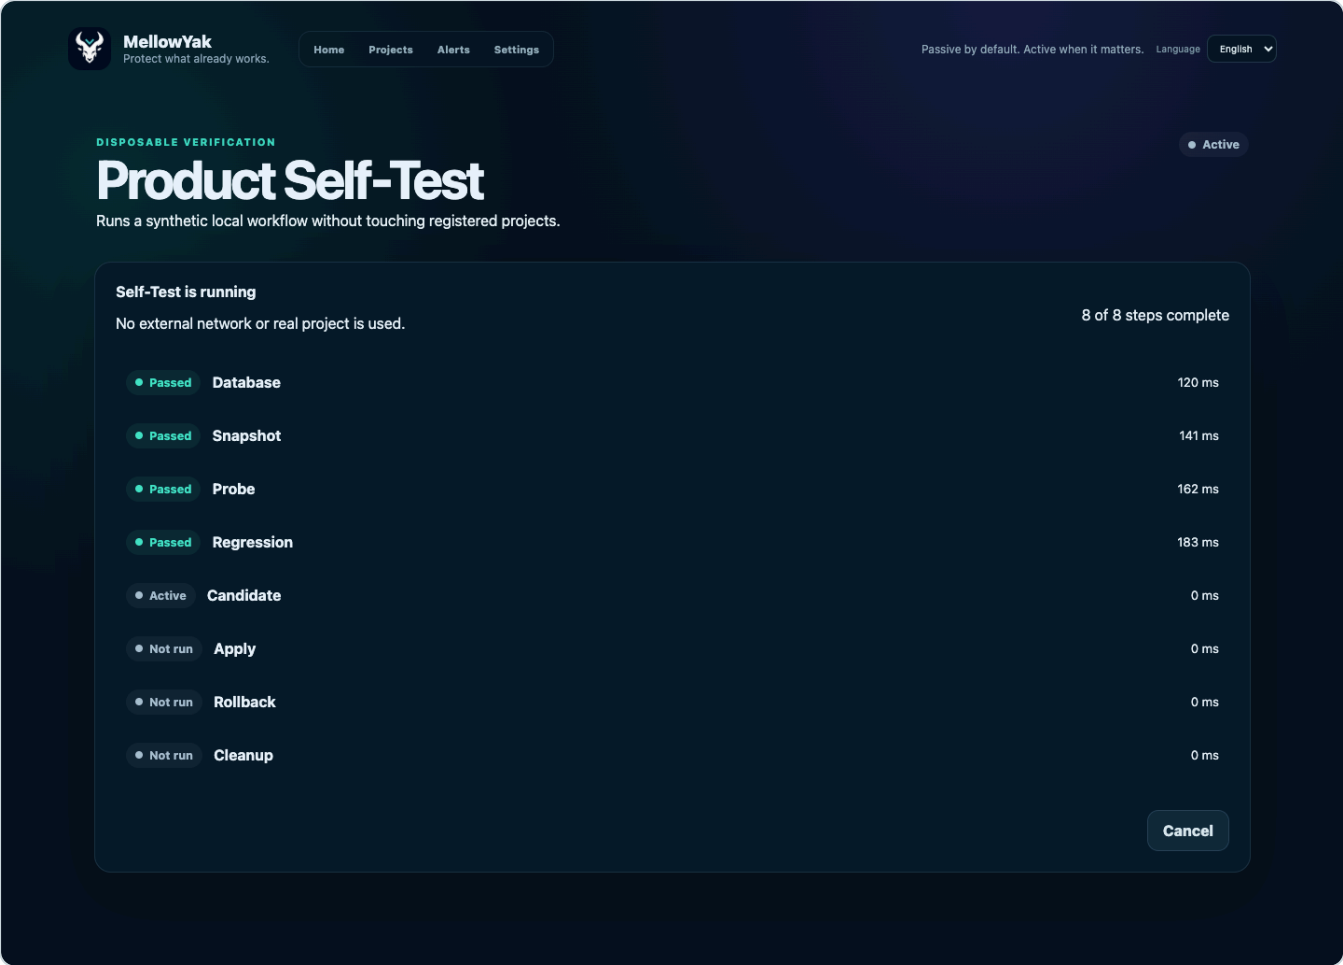

Purpose	Show the current product state, its evidence, limitations, and safe next action.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Use the visible operational controls to continue to exact local context.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

25. Diagnostics Center

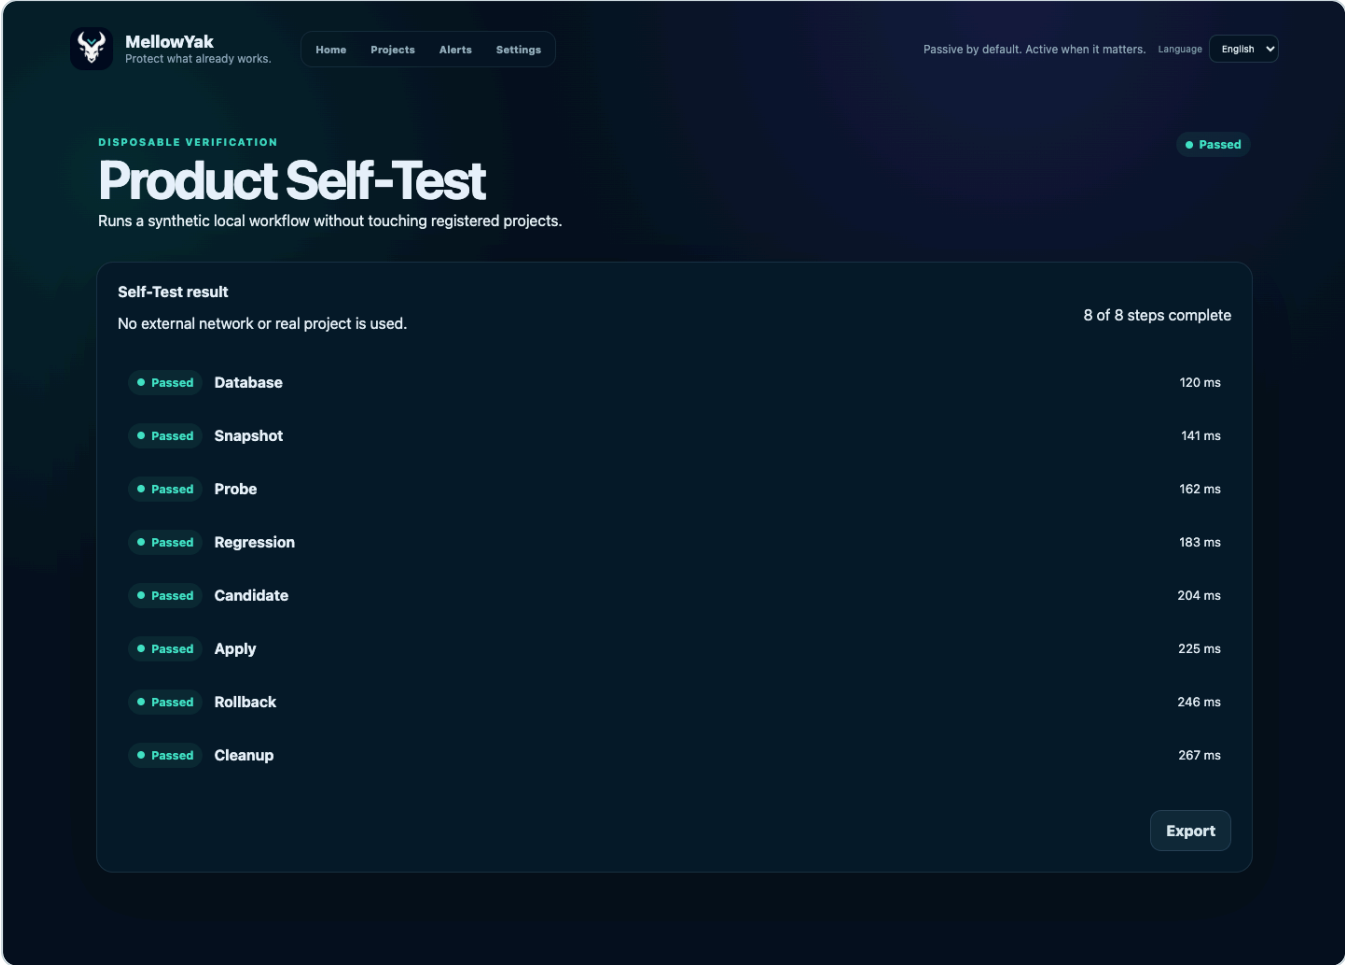

Purpose	Show the current product state, its evidence, limitations, and safe next action.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Run Self-Test, export support information, or copy redacted diagnostics.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

26. Product Self-Test running

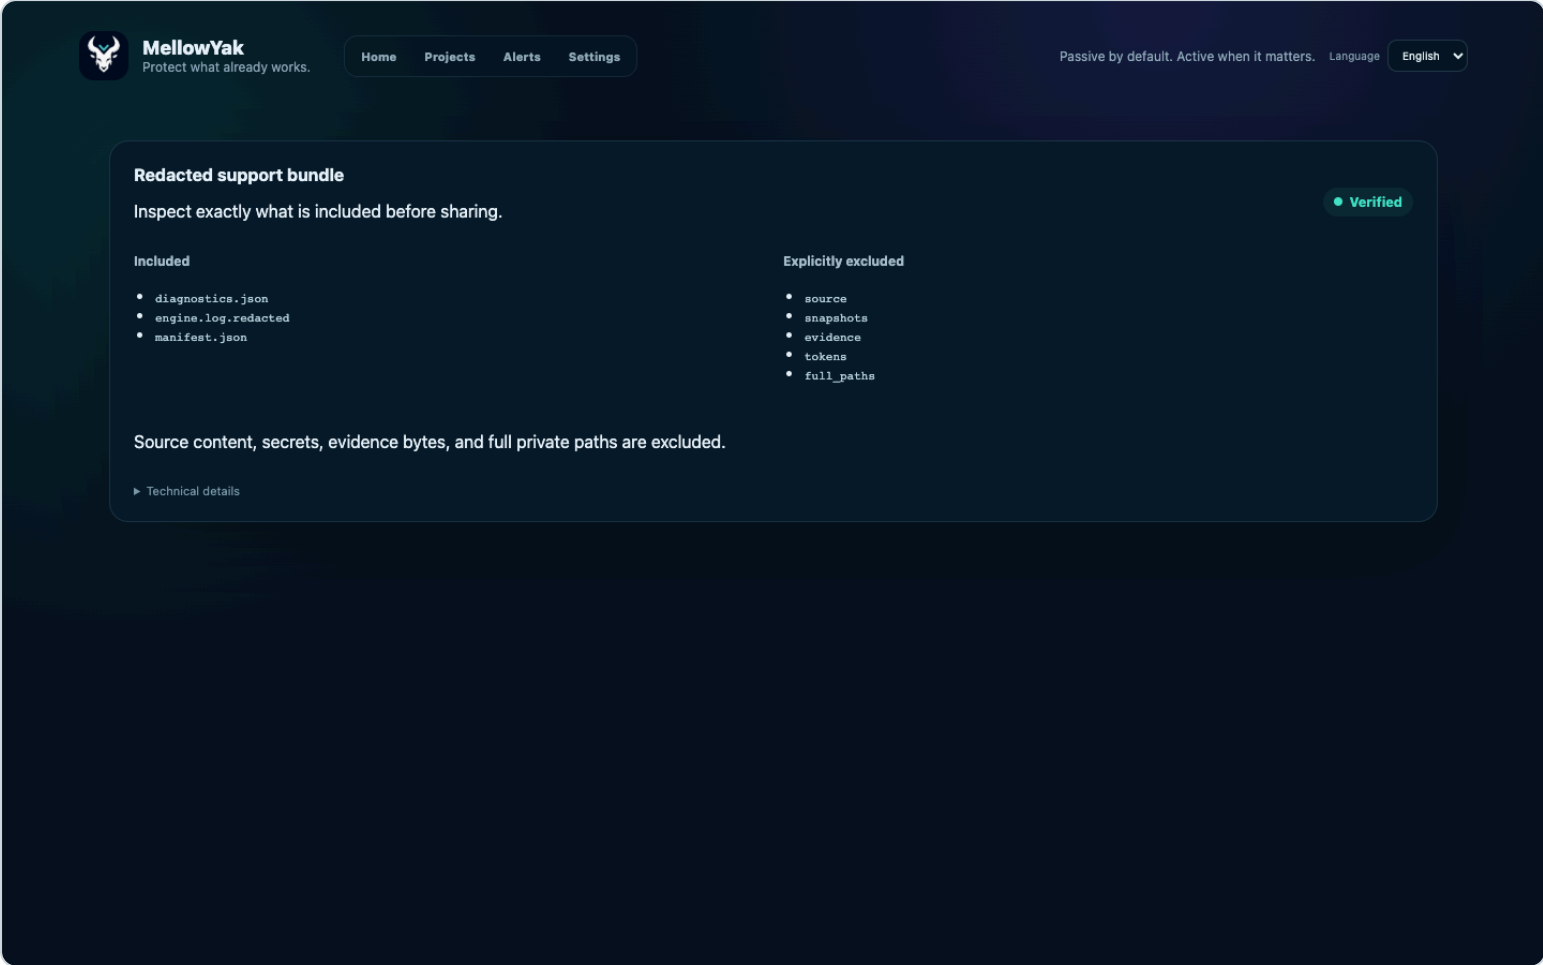

Purpose	Show the current product state, its evidence, limitations, and safe next action.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Use the visible operational controls to continue to exact local context.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

27. Product Self-Test passed

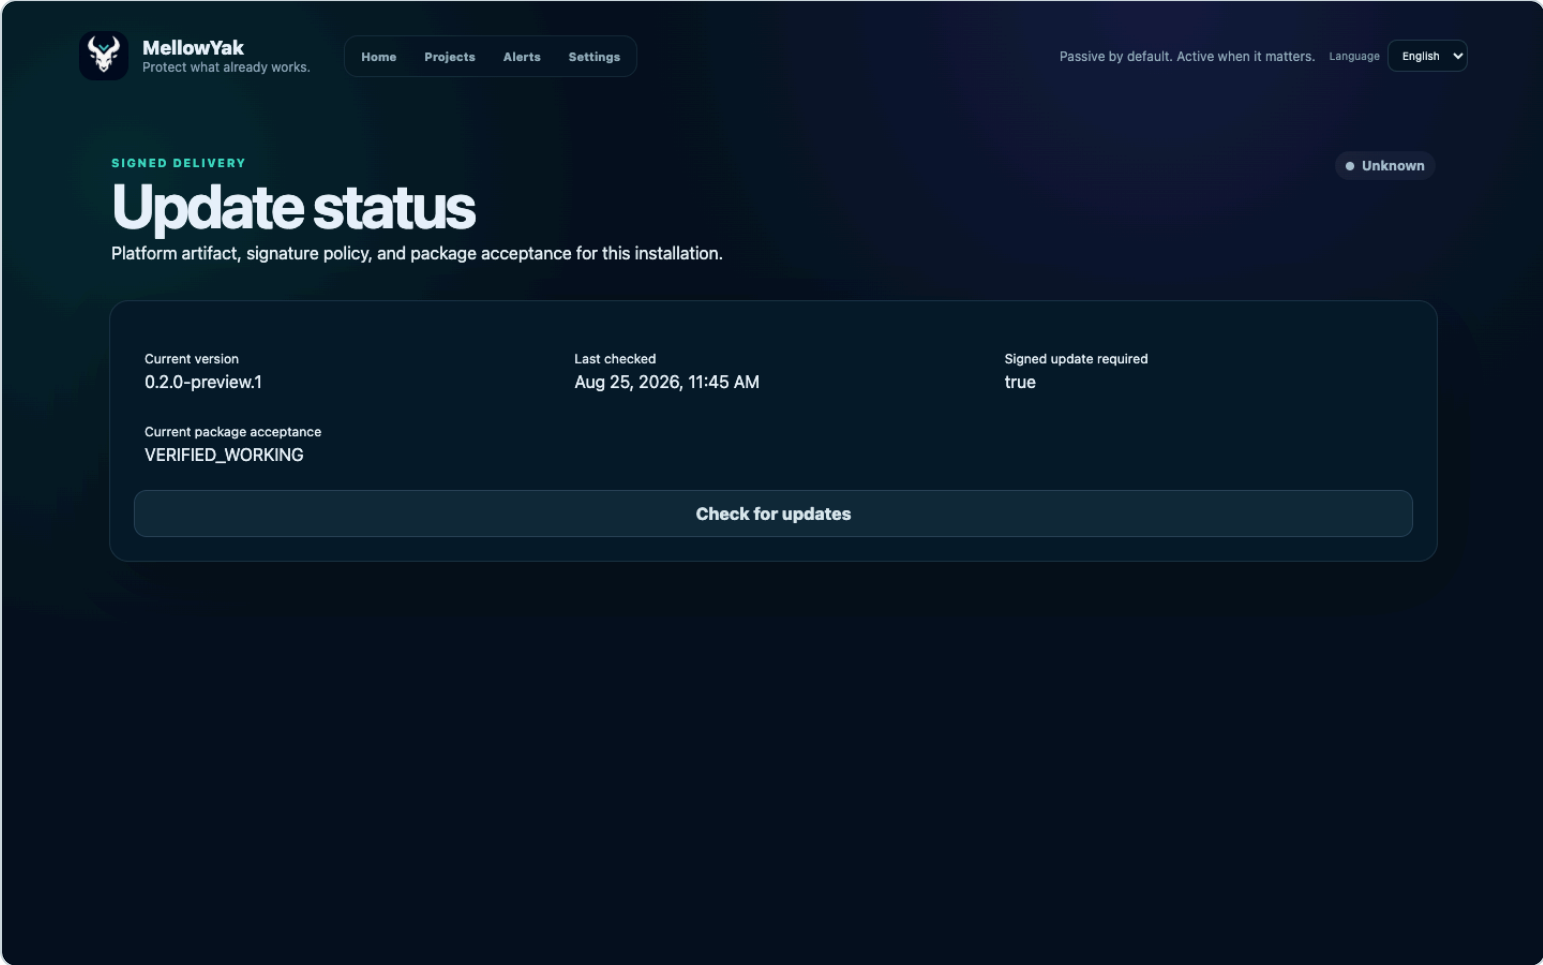

Purpose	Show the current product state, its evidence, limitations, and safe next action.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Use the visible operational controls to continue to exact local context.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

28. Support bundle manifest

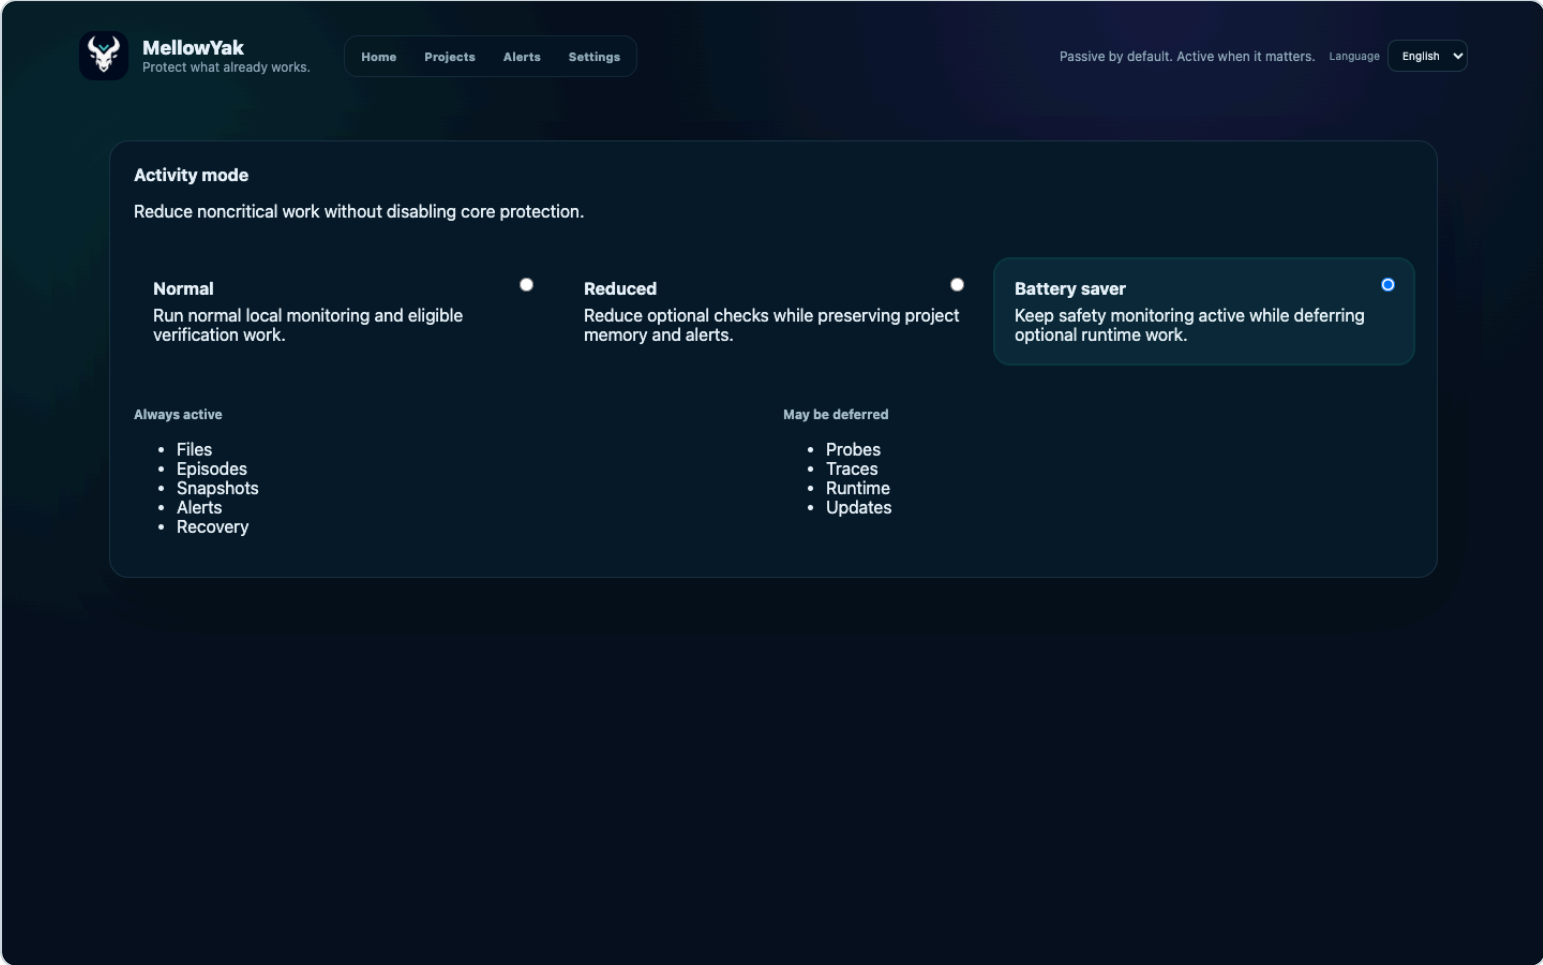

Purpose	Show the current product state, its evidence, limitations, and safe next action.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Use the visible operational controls to continue to exact local context.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

29. Update status

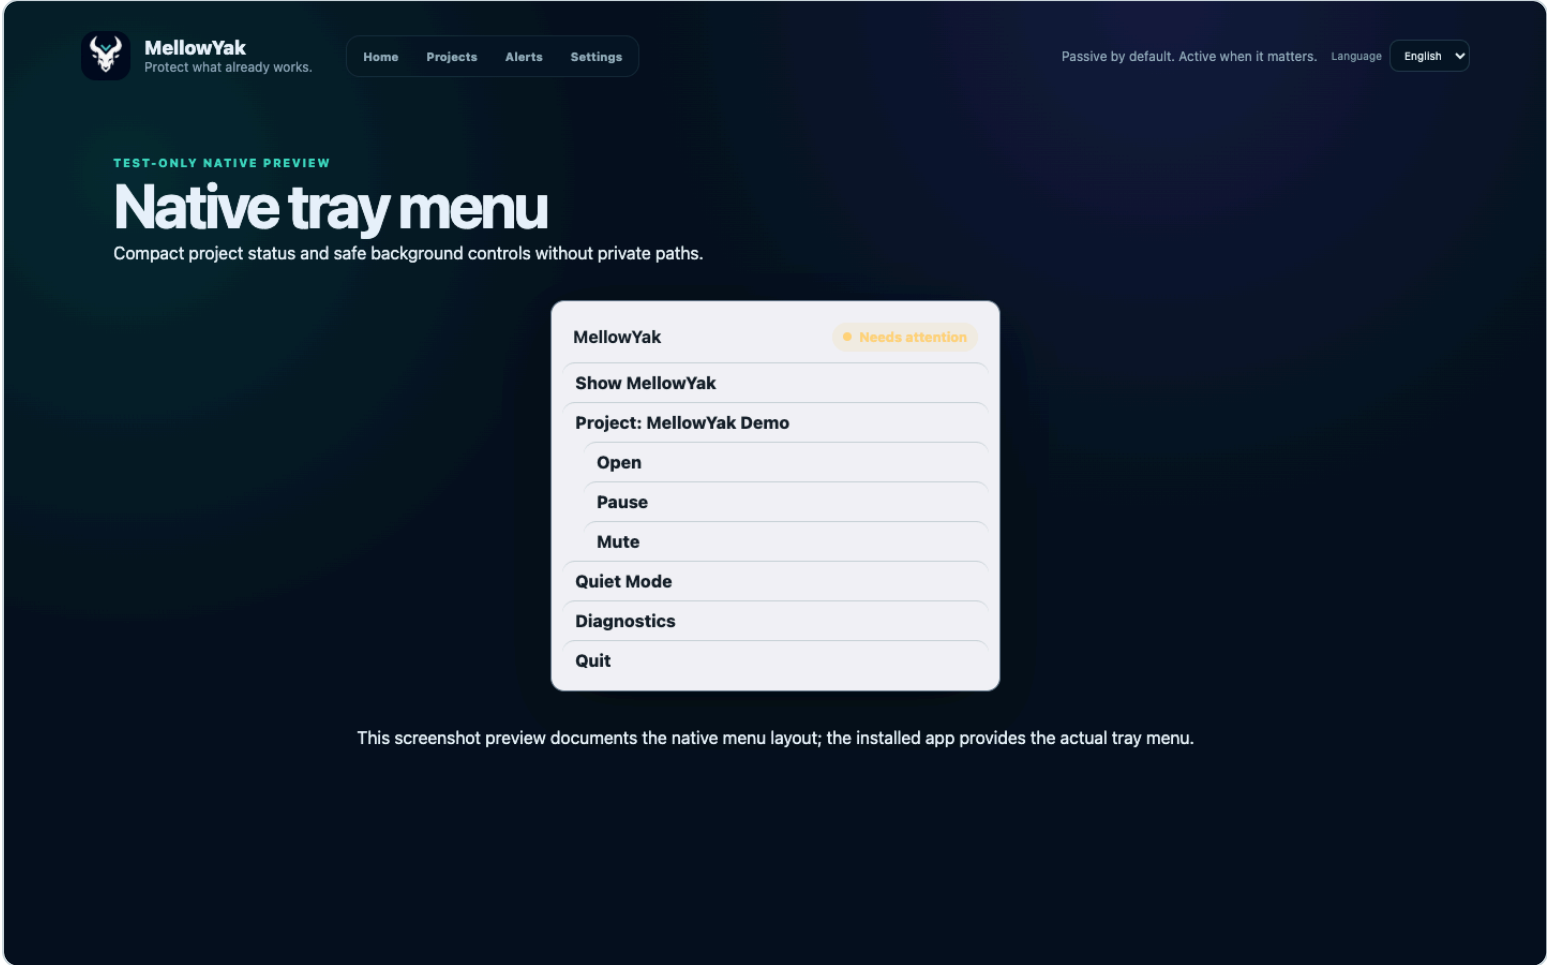

Purpose	Show the current product state, its evidence, limitations, and safe next action.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Use the visible operational controls to continue to exact local context.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

30. Activity mode settings

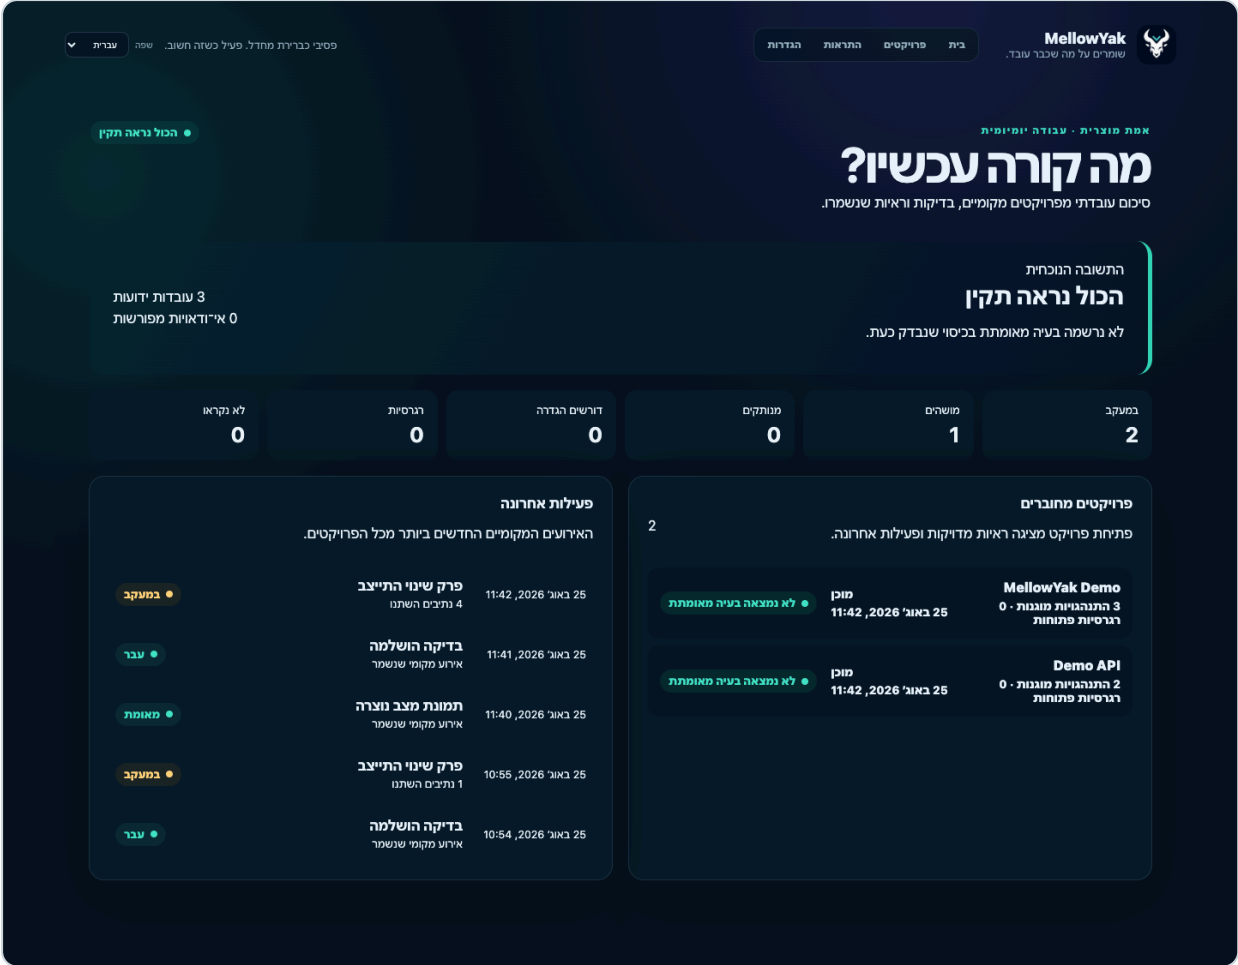

Purpose	Show the current product state, its evidence, limitations, and safe next action.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Use the visible operational controls to continue to exact local context.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

31. Native menu preview

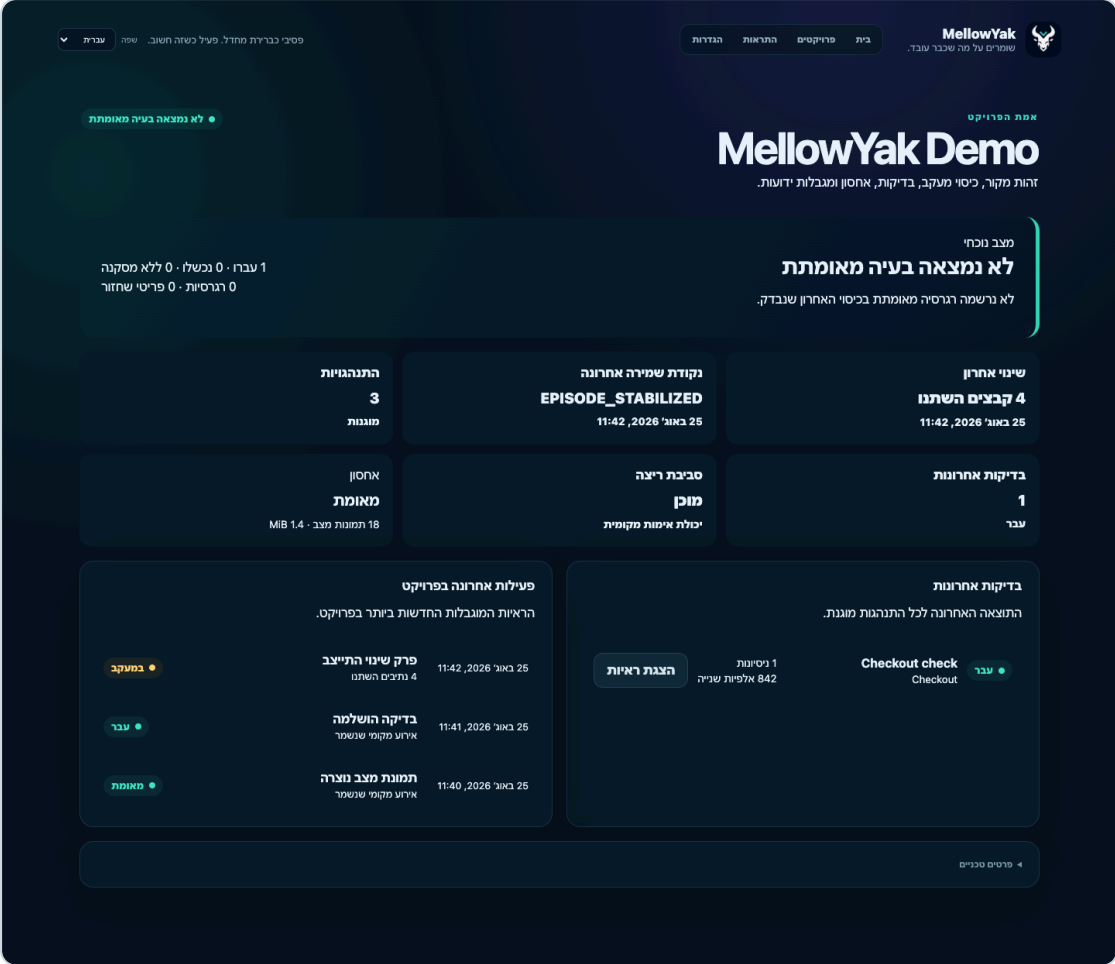

Purpose	Show the current product state, its evidence, limitations, and safe next action.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Use the visible operational controls to continue to exact local context.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	test-only native preview

32. Hebrew RTL Home

Purpose	Verify the same operational product surface in Hebrew RTL.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Use the visible operational controls to continue to exact local context.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

33. Hebrew RTL Project Overview

Purpose	Verify the same operational product surface in Hebrew RTL.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Use the visible operational controls to continue to exact local context.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No

Purpose	Verify the same operational product surface in Hebrew RTL.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Review evidence, run again, or create a Repair Workspace.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
Surface	real operational UI with synthetic capture data

35. Hebrew RTL Diagnostics

Purpose	Verify the same operational product surface in Hebrew RTL.
State	Deterministic synthetic Phase 10 state rendered through the production component.
Data source	Explicit screenshot-test fixture; no real project or user data.
Actions	Run Self-Test, export support information, or copy redacted diagnostics.
Known	Only values visible in the bounded synthetic evidence are claimed.
Unknowns	Root cause, complete blast radius, unexecuted checks, and untested platforms remain unclaimed.
Next	Follow the primary visible action or open technical details when needed.
Source modified	No
